Welcome

Welcome to Regent College London.

In today's rapidly changing global economic environment, having the right qualifications is more important than ever.

At Regent College London, we have been operating successfully for over 20 years, and are now in our tenth year of providing higher education courses.

We have built a reputation on well-qualified and experienced staff, small class sizes, and well-funded facilities. This allows our students to flourish and succeed – whether it is to build their careers or go on to further study.

We are dedicated to widening access to higher education for all prospective students and are recognised for our success in attracting applications from under-represented groups, those who are returning to education to gain new or higher level skills, and those with varying levels of past academic success.

We are able to work very effectively with students of all abilities to improve their prospects and carry them forward into achieving their academic aspirations, forge successful careers or start their own businesses.

We offer a range of fully accredited, industry-focused HND, foundation year routes, foundation degrees, bachelors degrees, top-up and masters courses that are designed with both professional and personal success in mind.

We pride ourselves on taking an individual approach to our students needs and on working hard to enable them to achieve their goals. Our flexible approach means we are always looking for ways to improve what we offer in terms of courses, student support and the Regent College London student experience.

As Principal of the College, I am responsible for setting and meeting our strategic objectives and for ensuring the quality of our student experience. I look forward to welcoming you to Regent College London in person very soon.

Course Delivery Methods

IN-PERSON

At Regent College London we are committed to delivering flexible courses that actively enhance your career prospects. We want studying with us to be an exciting and rewarding experience, which is why we've made every effort to ensure learning is tailored to your needs. Our package of study options is based on three pathways: In-person, Online, and On-demand.

WHY STUDY IN-PERSON AT REGENT COLLEGE LONDON?

Learning in a classroom environment or within a small study group remains the preferred choice for many students who want that traditional university experience. With in-person study, the teacher and students are present at the same location and meet at a scheduled time. They use laptops and tablets to engage with the coursework, share information, and receive feedback on current assignments.

RCL IS FOR STUDENTS OF ALL AGES AND BACKGROUNDS

All in-person teaching at Regent College London takes place at one of our modern and well-equipped campuses across the city. Each are thriving, diverse communities of passionate, dedicated individuals and are in areas that can benefit our students academically as well as socially. Ideal for encouraging a better learning experience, it is these types of communities that help our students to prosper and grow. With connections to local businesses, excellent transport connectivity, dedicated facilities, and on-site career and teaching support, we offer students everything they need, no matter where in the world they join us from.

The Regent College London Campus

Our Locations

CENTRAL LONDON (GREAT TITCHFIELD STREET)

Our newest location is set in the heart of London at Great Titchfield Street. The facility has excellent transport links and is close to the heart of city life, including nearby restaurants and bars. The GTS campus boasts well-equipped classrooms, a student lounge, computer suites, free Wi-Fi, and private study areas.

STEP INTO THE FUTURE WITH REGENT DIGITAL SERVICES

Due to uncertain times and the progressive nature of Regent College London, we have created Regent Digital. An education ecosystem enabling transformative and adaptive learning for all students online and on-campus, providing the highest of standards for all students. Regent Digital Services makes the most of the latest advancements in technology and gives you, the students all the perks of attending your dream course!

Our flexible study timetables are created to suit almost every lifestyle, and you will have access to a high level quality of education whenever and wherever you want, as long as you have access to the internet; all at the tip of your fingers!

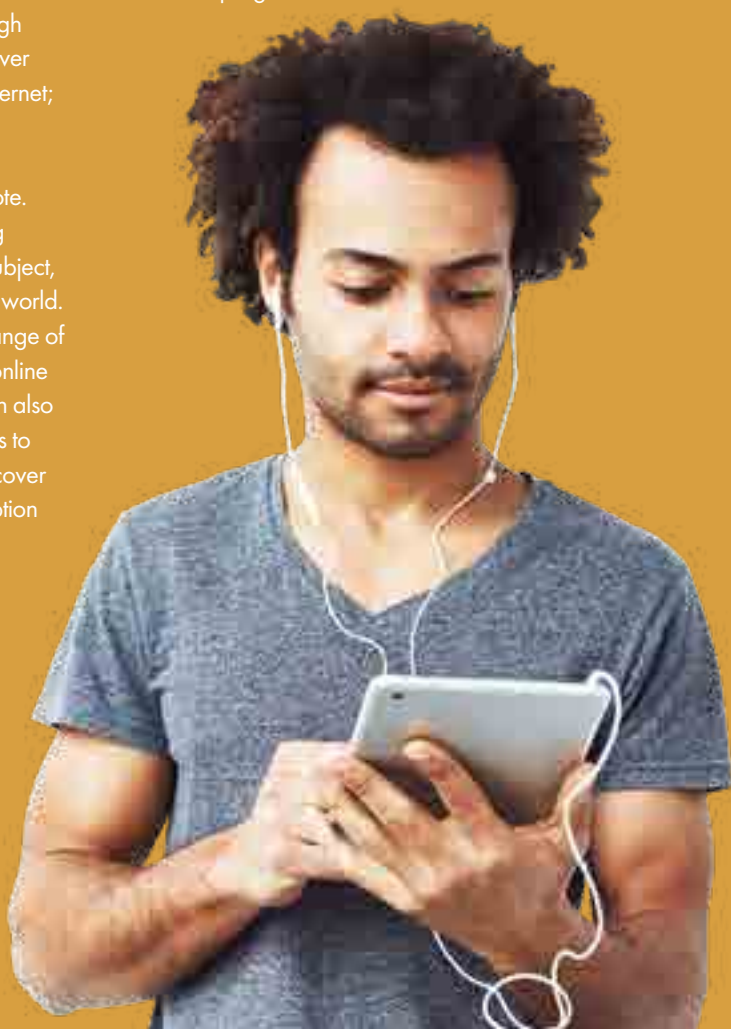

Embark on social distancing on a productive note. Regent Digital Services can be a useful learning method for sharpening your skills in a difficult subject, or learning a new skill in an increasingly digital world. In addition, you will have access to a diverse range of materials such as videos, photos, and eBooks online as well. Our highly experienced academics can also integrate other formats like forums or discussions to enhance your engagement in their lessons. Discover how it works and why it could be the perfect option for you!

WHAT COURSES ARE OFFERED ON REGENT DIGITAL SERVICES?

Great news! We are offering all of the Regent College London Courses through Digital Learning.

HOW WILL REGENT DIGITAL SERVICES WORK?

It's pretty simple and easy to use! We have already made the transition to using 100% online resources, and now students can expect to study using a combination of cutting-edge technological resources with no need to travel to attend lectures, exams or in-person discussion sessions! They are accessible on Regent Digital Services via the internet on your mobile, PC, tablet or laptop. The academic team will determine the format for each individual course and will select delivery methods that are best suited to your course or program.

"I really love the teachers, they take the extra time and effort to help me. The college helps me to keep my dreams alive. It is a warm place where i feel very comfortable. The environment is really supportive. And most importantly, the teachers made me realise that to achieve something one requires vision, self-motivation, determination and hard work."

Stefania Voevod

BA (Hons) Business Management Degree with Foundation Year

"The great thing about Regent College London is its campus location in central London. The newly refurbished campus is well equipped with state of the art technology. Our teachers did an awesome job during the COVID-19 pandemic by keeping the class running flawlessly through digital lessons."

Rashed Haider

BEng (Hons) Software Engineering with Foundation Year

"Regent College London is an outstanding institution where you can approach tutors easily and find lots of support from staff if needed. I've been studying at the Regent College for 3 years now, their location access is what attracted me the most from where I live. It's so multicultural that everyone can fit in comfortably."

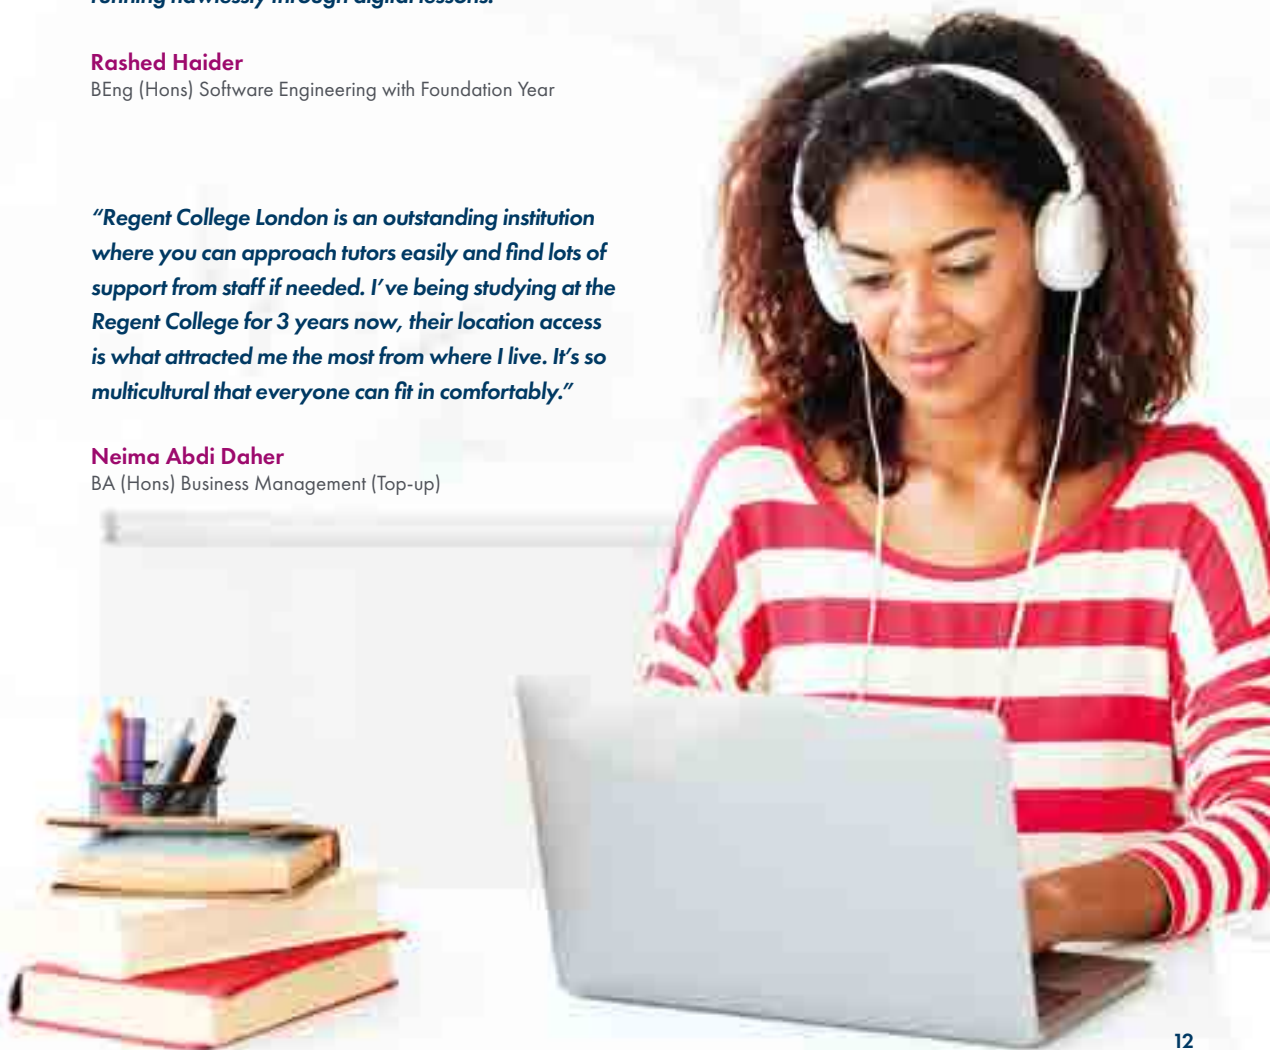

Neima Abdi Daher

BA (Hons) Business Management (Top-up)

"A very friendly and helpful college. Been an extremely pleasurable experience with welcoming and friendly staff and qualified patient and very supportive tutors. Infact the whole experience is being one of feeling of belonging to a family. Being an old person with disability, the encouragement and support I received leaves me overwhelmed with gratitude. I have no qualms to sincerely recommend students to choose Regents College as their first choice of their educational endeavours."

Prakash Mandalia

BA (Hons) Business Management (Top-up)

Student Experience

We aim to create a stimulating and supportive learning environment that enables students to interact, share stories and support each other freely and cohesively. Drawing on our long experience of educational success and cultural diversity, our focus is on enhancing skills and developing knowledge that can help you achieve your personal and career aspirations.

Embracing students from all walks of life is a priority, which is why both our academic learning facilities and courses have been designed with our students in mind. We foster a student community that encourages employability through vocational-based courses and a non-traditional student experience.

IDEAL LEARNING ENVIRONMENT

Our campuses are strategically located in the heart of thriving communities, in areas that can benefit our students academically as well as socially. Ideal for encouraging a better learning experience, it is these types of communities that help our students to prosper and grow. From connections with local businesses, dedicated facilities and on-site student career and teaching support, we offer students everything they need, no matter which part of the world they have come from.

We also ensure all students are supported on a digital scale so no matter where you are attending lectures, if support is what you require we have a range of communication channels for you to reach us.

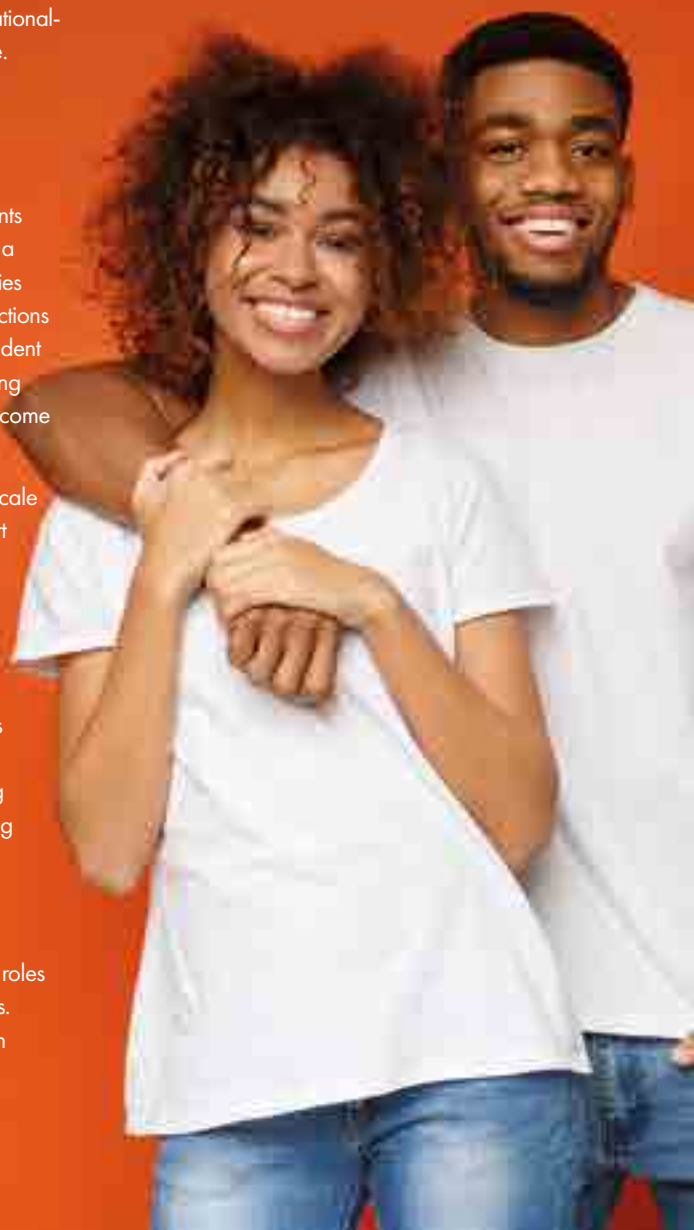

STUDENT REPRESENTATIVES

Our student representatives (student reps) are volunteers who support our staff by championing the collective voice of students on all academic issues. From gathering opinions and providing constructive feedback, to helping keep students updated, the student rep is an accessible, convenient channel for ensuring your voice is heard.

We are undergoing a full review of our Student Representation structure to provide reps transparency in roles and responsibilities by introducing a variety of new roles. Our Student Reps will be voted through the new election process system.

**IF YOU ARE INTERESTED IN

Careers and Employability

YOUR LEARNING

Our experienced lecturers have substantial real-life business knowledge, which is invaluable in coaching and mentoring students to further enhance their employability. Based on actual case studies and business issues, our courses are built on attributes valued by employers in the real world, such as communication skills, decision-making, teamwork and problem solving. This can equip you with the insights and capabilities you need to work in many different areas of business.

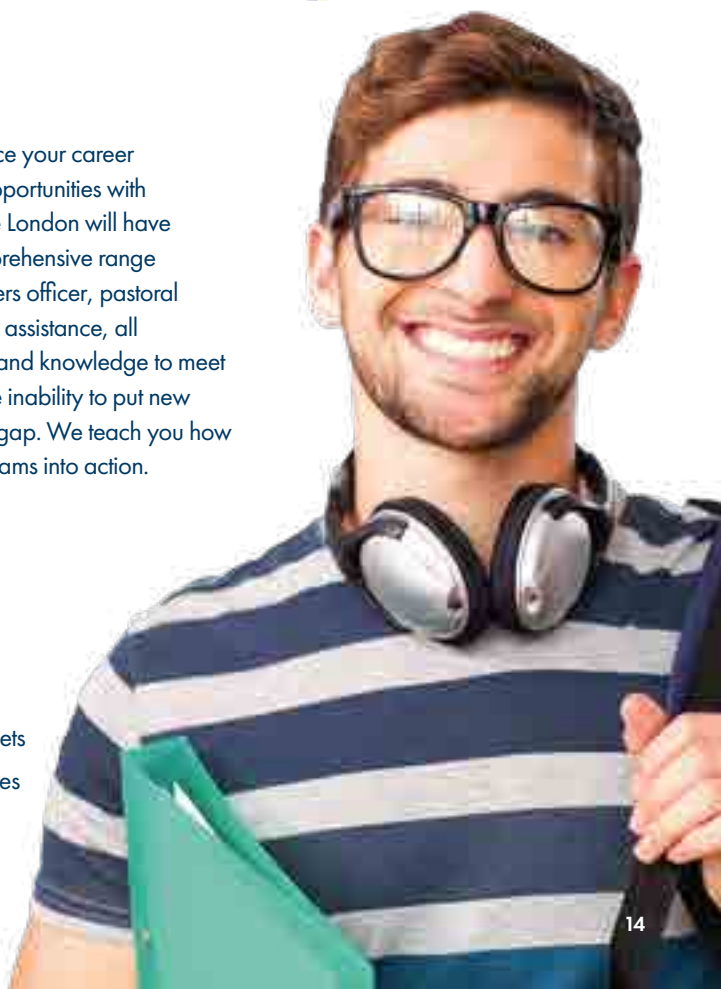

OUR SUPPORT

We focus on delivering courses that can enhance your career prospects. From vocational courses to career opportunities with local businesses, your studies at Regent College London will have employability at their core. This includes a comprehensive range of support services, including a dedicated careers officer, pastoral support, careers advice and tailored job search assistance, all designed to equip you with the necessary skills and knowledge to meet your career or higher education aspirations. The inability to put new ideas into practice is called the knowing-doing gap. We teach you how to bridge this gap to enable you to put your dreams into action.

ENHANCING OPPORTUNITIES

By focusing on the skills most valued by employers, our courses enable you to:

- Develop key business knowledge and skillsets
- Train for specific in-demand job opportunities
- Enhance your career prospects
- Progress to a higher qualification

The Student Voice

**NSS (THE NATIONAL
STUDENT SURVEY 2022)**

We can only do this through continuous, honest and transparent feedback. Combining qualitative input from students with our creative aspirations, we hope to excel in becoming the recommended educational institute for operational excellence and student support in London. Our student voice and engagement encompasses our pedagogy & quality development and enhancement.

Our student voice and engagement encompasses our pedagogy & quality development and enhancement.

The National Student Survey (NSS) 2022, carried out by Texunatech on behalf of the Office for Students, surveyed some 4.5 million students in the UK about their experiences in higher education. Respondents were asked for their views on a wide range of aspects during their studies including the level of teaching received, learning opportunities and resources, academic support, the university community, and available representation.

Regent College London achieved an Overall Satisfaction score of some 93%, placing the College in the top tier of higher education providers surveyed. We also exceeded the sector-wide score across all topics surveyed.

The Office for Students is an independent regulator of higher education in England. Visit its website for more information on its work to ensure students succeed and have a fulfilling experience of higher education in the UK.

Student Services

Student Services is a priority at Regent College London. It is established to be the 'One Stop Shop' for all current students during their academic journey. We deliver centralised services directly to all our current students, be it just general advice and guidance, or confidential discussions around health, wellbeing and personal circumstances.

STUDENT SERVICES PROVIDES THE FOLLOWING SERVICES:

Personal support

if you are experiencing relationship, family issues or domestic difficulties.

Academic advice

on transfers, resuming studies, withdrawn or suspended from studies including advice on the financial implications of this.

Student benefits

advice on discounts such as NUS/Totum Cards, travel discounts, advice on accommodation. Guidance on Student Finance and support to complete your application.

External support

liaising with external organisations on the students' behalf, such as Student Finance England for direction with Student Disability Allowance, Child Care Allowance etc.

Special interest

providing specialised support to students with learning difficulties such as dyslexia or dyspraxia through our external special needs provider Randstad.

Personal support plans

providing support with Individual Assignment Submission Arrangement in the case of extenuating circumstances, Individual Maternity Support Plans, Individual Support Plans for students with mental health issues etc.

Confidential support

for students with a disability or a condition that affects their studies.

Advice

on non-academic and pastoral issues.

Mental health support

through our mobile app Mind Connect
- Students will have immediate access to bespoke, mental health support information and helplines whenever they need in times of difficulties.

Student Committee

student representatives' meetings where all the issues raised by students are discussed; 'you said we did' poster published to reflect actions taken.

Thinking into Character (TiC)

Thinking into Character (TiC) is a suite of transformational learning programmes. They are designed to aid your personal growth and accelerate your professional success. Whether you know it yet, you have the potential to improve your results exponentially, whether that is by completing a degree, getting a promotion, starting a business or enjoying more fulfilling personal relationships. These programmes will show you how these leaps in success are possible. Are you ready to make the leap?

Led by Dr Selva Pankaj, Principal, Regent College London and trained facilitators, the programmes are unique to Regent College London and are delivered digitally. They are based on indepth, pioneering research into the science and methodology of personal achievement, and includes insights from many inspirational entrepreneurs and leaders from across the globe. Students will also receive a TiC e-book.

OUR TRANSFORMATIONAL LEARNING PROGRAMMES

Thinking into Character Digital Platform

This programme is specifically designed to enable participants to build happy, successful lives and to achieve all of their goals and dreams, both educational or professional and personal.

The Power of Learning from DAD Digital Platform

The programme will teach you how, using the resources you currently have, you can create the habits and mind-set required for lasting success, happiness and self-fulfilment.

Think and Grow Rich Digital Platform

This programme will present you with a concentrated version of Napoleon Hill's insights. Each of Hill's 13 principles for success creation will be summarised, from having a burning desire and preparing an organised plan, to cultivating your sixth sense.

Benefits

Learn how to identify, set and achieve inspiring goals

Improve your self-image and re-write your life script

Close the gap between your intentions and your actions

Understand how to turn non-productive habits into productive habits

Overcome challenges and barriers to success

Develop your leadership qualities

Completing the programme will not only help to transform your personal development, it will allow you to super-charge your personal and academic goals, equipping you with the knowledge and tools to achieve unprecedented success in your life.

SCOPE – More Than Just Academic Learning

SCOPE is Regent College's exclusive enrichment programme that helps students to maximise their academic, personal, and professional learning and development. SCOPE stands for:

SUCCESS
CHARACTER
OPPORTUNITY
PROGRESS
ENHANCEMENT

SCOPE sessions are free, open to all students, optional and non-assessed.

Delivered via MS Teams, the programme of webinars, workshops, inspirational talks, and engaging activities is continually updated to meet students' diverse needs and interests. Sessions are promoted regularly, and students are sent weekly reminders about forthcoming events. They are also recorded so that students who are unable to attend never have to miss out.

All Regent College London students are strongly encouraged to take part in as many SCOPE activities as possible. They are a fantastic way to develop critical thinking, learn valuable skills and build positive networks - enhancing students' academic studies whilst enriching their personal growth and elevating their career prospects.

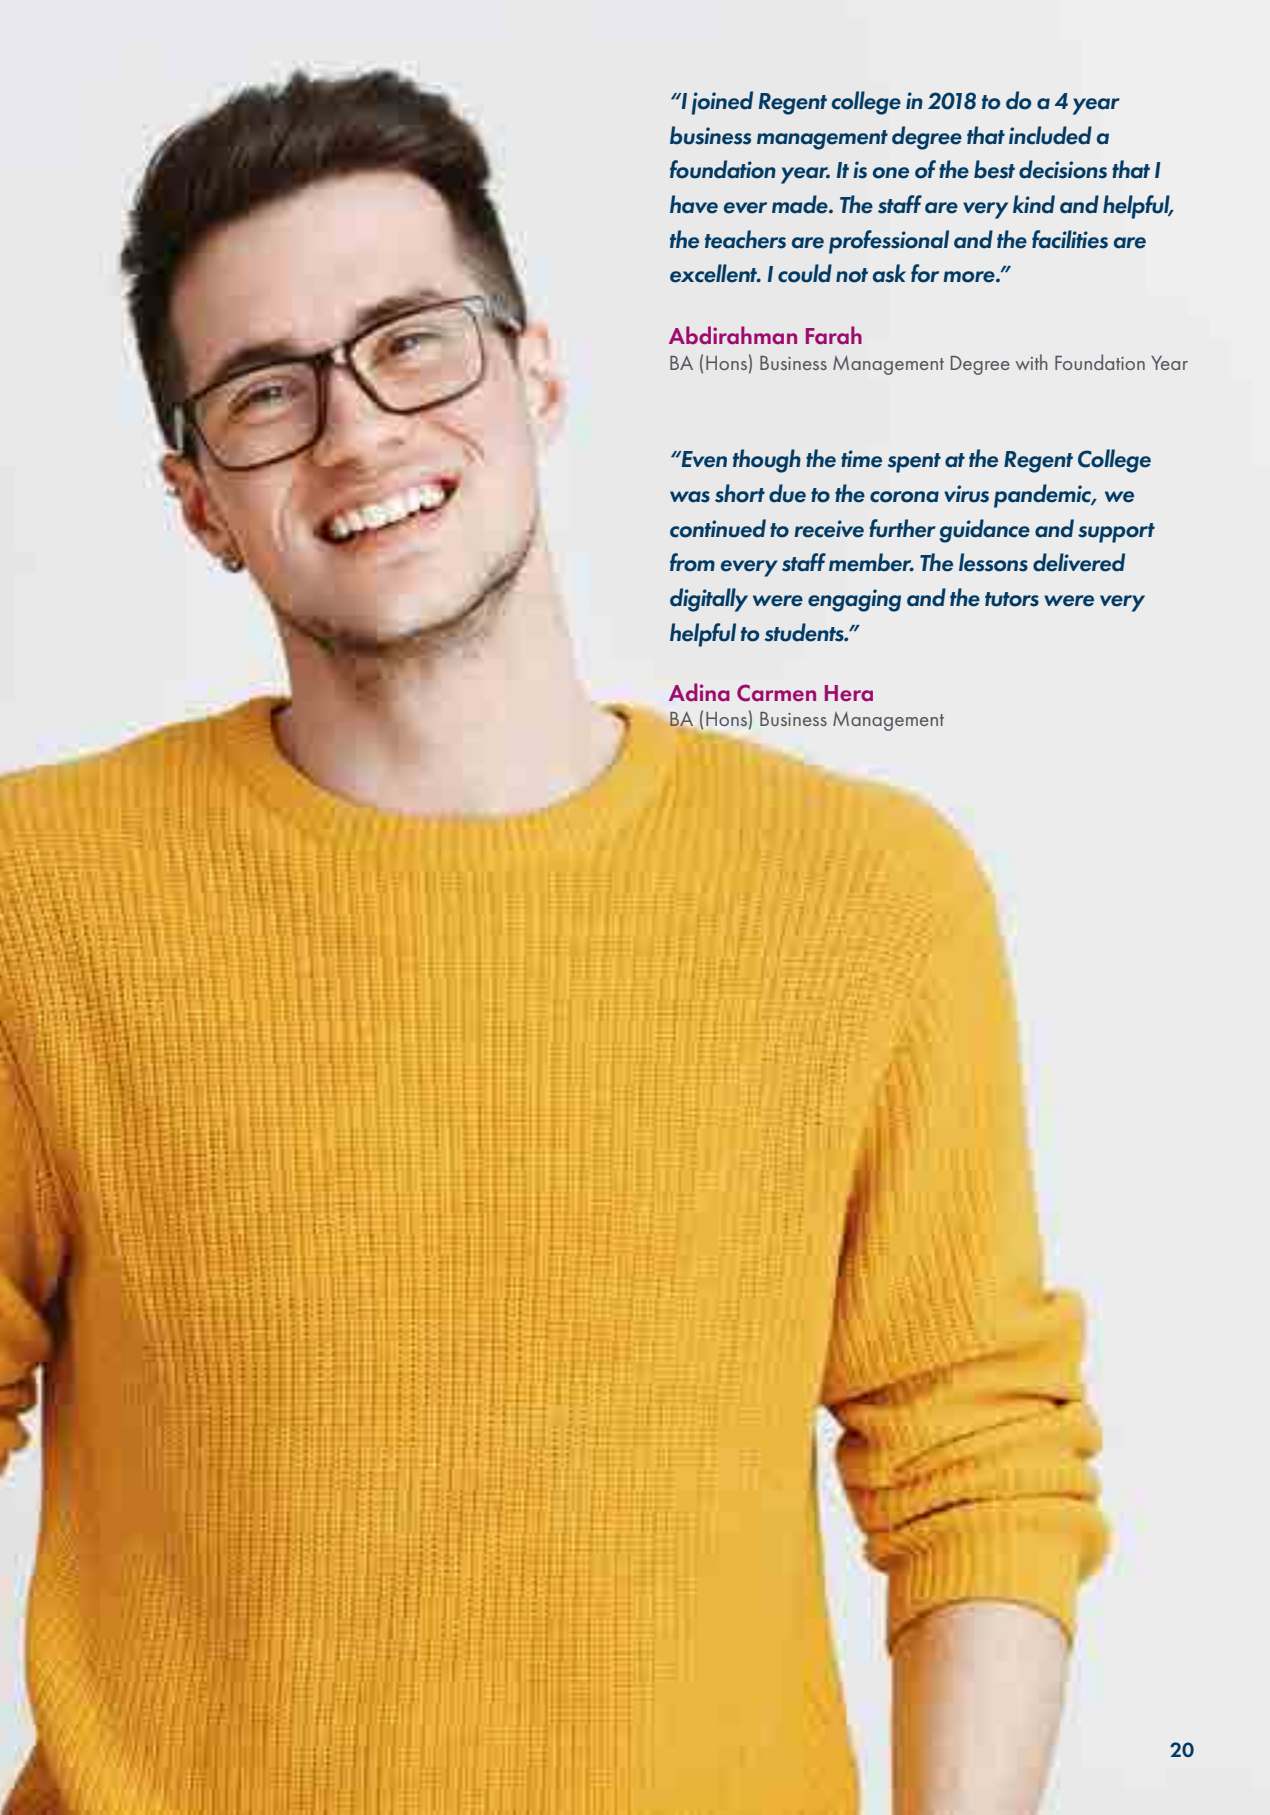

The SCOPE schedule includes the following activities:

- Thinking into Character Workshops and Study Circles
- Academic and Study Skills Webinars
- Careers and Employability Webinars
- Professional and Personal Development Masterclasses
- Inspirational Guest Speaker Talks
- Health and Fitness Sessions
- Wellbeing and Mental Health Workshops
- A 10-week course in Transpersonal Psychology
- The European Computer Driving Licence (ECDL) Programme

THE SCOPE GUEST SPEAKER SERIES

An essential part of the SCOPE programme, we regularly invite inspirational guest speakers from the public, private and charity sectors to share their life stories, career highlights and personal achievements in informal conversational settings. Drawing on a wealth of experience, these engaging, and often thought-provoking talks provide students with valuable new perspectives, as well as up to date information, advice, and guidance to help them achieve their personal and professional goals.

"I joined Regent college in 2018 to do a 4 year business management degree that included a foundation year. It is one of the best decisions that I have ever made. The staff are very kind and helpful, the teachers are professional and the facilities are excellent. I could not ask for more."

Abdirahman Farah

BA (Hons) Business Management Degree with Foundation Year

"Even though the time spent at the Regent College was short due to the corona virus pandemic, we continued to receive further guidance and support from every staff member. The lessons delivered digitally were engaging and the tutors were very helpful to students."

Adina Carmen Hera

BA (Hons) Business Management

Academic Partnerships

London Academic Centre

UNIVERSITY OF BOLTON

University of Bolton's number one mission is to be a distinctive "Teaching Intensive and Research Informed" university that puts student experience and education first, supported by the quality of our staff, our facilities and our links to employment sectors. Regent College London is proud to oversee all teaching, learning and student experience at University of Bolton Academic Centre London. The University of Bolton is a modern university with a distinguished history and has a long and proud heritage that goes back to 1825.

BUCKINGHAMSHIRE
NEW UNIVERSITY
EST. 1891

BUCKINGHAMSHIRE NEW UNIVERSITY

Buckinghamshire New University is a long-standing established university with history dating back to 1891. An established educational institution for over 125 years it is renowned for innovation, teaching and student excellence. They are ranked as a top 20 UK University for student experience and teaching quality (NSS 2018), and in 2018 Bucks received a TEF Silver Award in recognition of their teaching excellence. They were proud to see Bucks ranked 16th in the UK for teaching quality (out of 130 institutions) in the 2018 Good University Guide.

UNIVERSITY OF NORTHAMPTON

The University of Northampton is one of the youngest universities in the UK and continues to make an award-winning impact year after year. With multiple awards for its work in adding value to society, it recently received Gold accreditation in the Teaching Excellence Framework (TEF) Year Three and was the first university in the UK to be named as a Changemaker Campus in 2012.

St Mary's
University
Twickenham
London

ST MARY'S UNIVERSITY

Established in 1850, St Mary's University is a welcoming academic community, with a long and distinguished history in higher education. The University is committed to the highest standards in teaching across the wide range of undergraduate and postgraduate courses it offers and welcomes around 5,500 undergraduate and postgraduate from around the world to its campus in Strawberry Hill, London.

St Mary's is in the top ten nationally for teaching quality and the top five for student experience (Good University Guide 2022) and recently retained its Ofsted Outstanding Rating, which it has held for over ten years. The University is proud of its employability rates, with 96% of graduates from St Mary's in employment, vocation or further study within 15 months (HESA 2021).

NCUK is a global network, made up of over 45 leading universities dedicated to providing international students guaranteed access to undergraduate and postgraduate courses. The consortium expands across five continents with study centres in multiple countries.

External Evaluations and Achievements

Regent College London delivers high quality teaching, learning and outcomes for students. We consistently exceed rigorous national quality requirements for UK higher education.

QUALITY ASSURANCE AGENCY (QAA)

QAA works to safeguard quality and standards in UK universities and colleges, so that students have the best possible learning experience. QAA reports highlight good practice and contain recommendations to help improve quality.

Regent College London underwent a review by the QAA in September 2016 and received a commendable outcome from its 2017 monitoring visit. An annual return visit in September 2018 confirmed that we are continuing to maintain academic standards and enhance the quality of, and information about, student learning opportunities.

PEARSON

Regent College London is inspected by Pearson twice per year, once via an Academic Management Review (AMR), and once via a Standards Verification process. Our most recent AMR took place in March 2021.

There were no essential actions or recommendations made.

THE LATEST REPORT STATED:

“Student surveys, Student Voice Box, student participation at boards and committees, the Student Representative system and the National Student Survey (NSS), all contribute to an internal culture of continuous improvement.”

“The Assessment Policy, Programme Handbook and Student Charter, Equality and Diversity Policy, Learning Support Policy, and the centre’s Access and Participation Plan underline the College’s commitment to ensuring parity in access to assessment for all students.”

Our External Examiner visit was held in July 2021.

THE REPORT STATED:

“Positive feedback received from the discussion with a group of students. The students are overall happy with the teaching and assessment practices of the centre. Students are also happy with the physical resources of the centre. Students met during EE visit virtually, expressed satisfaction with the clear guidance provided by tutors and assessors, and ease of accessing essential resources needed for assignment activities.”

International Students

WHY STUDY IN LONDON?

Studying in London provides students with a very unique experience. The City of London offers an atmosphere like no other, with vibrant communities, incredible shopping districts and mouth watering restaurants, London is truly the place to study. The cosmopolitan city leads in many industries including a leading Financial Centre in Canary Wharf, a thriving Business district based in the Centre of London and of course, superior Law Firms in Chancery Lane. London attracts the very best businesses with its breath-taking architecture and deep history.

London really is the place to study and is guaranteed to offer students a great, life-changing experience. Not only does the City offer diverse communities in every aspect of London, it is also encapsulated with museums, libraries and theatres, all of which add to a student's social life!

WE ARE HERE TO HELP YOU EVERY STEP OF THE WAY

Here at Regent College London we understand that coming to a new country can be a challenge, we are there to help you every step of the way from things such as completing a course application, helping you find accommodation, to even opening bank account etc.

We are here to ensure that you receive a high quality education, without any doubts or concerns. We understand that it is not only our responsibility to teach our international students, but it is also our responsibility to ensure that there is someone to turn to in the College should they need advice or assistance on any matter.

We have many years of experience of receiving international students and are well versed in dealing with the problems that students experience when adjusting to a life in the United Kingdom and supporting them through their period of adjustment.

Therefore, we will assist students in such matters as:

- Planning travel arrangements to the United Kingdom
- Ensuring students are enrolled on an appropriate course
- Setting up bank accounts
- Registering with the Health Service

ACCOMMODATION

With 5 perfectly situated campus locations across London, finding accommodation has never been easier. Students are able to live in great hotspots within their budgets, that are close to each campus location. Some students choose to rent accommodation, and we have a few tips that might come in handy when looking to Rent:

1. Area
2. Types of Renting
3. Council Tax
4. Security Deposit
5. Exemptions

We always encourage students to complete thorough research when choosing their accommodation. There are a lot of factors to consider and our Student Services Team are always on hand to help.

VISA FOR INTERNATIONAL STUDENTS

A student visa is part of a points-based system for immigration. A student visa is for migrants who want to study in the UK. If you are aware of the student visa requirements and you want to make an application, you can go directly to the UKVI website, www.gov.uk/government/organisations/uk-visas-and-immigration

Regent College London is a Licensed Student Sponsor who has a Track Record with UK Visas and Immigration (UKVI), allowing it to sponsor eligible students to enter the UK. The register of such sponsors is available at <https://www.gov.uk/government/publications/register-of-licensed-sponsors-students>

REGENT COLLEGE LONDON CURRENTLY OFFERS THE FOLLOWING COURSES TO INTERNATIONAL STUDENTS:

- FndCert International Foundation Programme (Business Management)
- FndCert International Foundation Programme (Computing)
- FndCert International Foundation Programme (Health and Human Sciences)
- FndCert International Foundation Programme (Engineering)
- NCUK International Year One (IYOne) in Business
- BSc (Hons) Business Management
- BSc (Hons) Health and Social Care (UOB)
- BEng (Hons) Software Engineering
- MSc International Management
- Master of Business Administration (MBA)
- MSc Software Engineering
- MSc Social Care, Health and Wellbeing

"I thoroughly enjoy being a student at Regent College. As a mature student, I know that this is the right place for me because I have received immense and timely support from the day I made contact with the college and this has continued throughout. The college does not only focus on the student's academic success but also provides services to ensure your mental well-being is not compromised. The lectures are interactive and you're encouraged to take leadership for your own learning. Since joining Regent I can see a huge difference in my approach to learning and that's given me confidence. There has been huge support since we moved to virtual lectures. The lecturers are constantly reminding students that they can be contacted by email or on MS Teams if we need any support with any aspect of our degree."

Patience Prosper

BSc (Hons) Health and Social Care (UOB)

SCHOOL OF BUSINESS AND ENTERPRISE

The School of Business and Enterprise allows students to take advantage of a broad range of Business related subjects. Each course is formulated with a range of modules to help target many different corners of the global business industry. Students who chose to enrol into any of our courses are exposed to many different Business and Enterprise disciplines such as Marketing, Business Management, Business Entrepreneurship and Accountancy. Whether you're looking to kick start your career in Business or reach new heights in your career, Regent College London are on hand to help take you there.

HND IN BUSINESS (HUMAN RESOURCE MANAGEMENT)

HIGHER NATIONAL DIPLOMA

Learners on the **HND in Business (Human Resource Management)** are introduced to the main areas of human resource management, including the human resource management role and function. This knowledge is then built on to give a broader perspective of human resource management practices. Topics covered include the role of training and employee development, including a consideration of government skills initiatives; and employment relationships in the UK, including industrial conflict, the resolution of disputes and negotiation.

🎓 On completion of the course you will be awarded a Higher National Diploma (HND).

Entry requirements

HIGHER NATIONAL DIPLOMA

- GCSE passes at grades 'A to C' including English Language, and either a minimum of one A Level at grades 'A' to 'E', or a BTEC Level 3 Certificate or Diploma, or an Access to Higher Education Certificate awarded by an approved further education institution; or
- College-recognised certificated learning equivalent to the above. Where possible Regent College London uses the NARIC database to determine equivalents to GCSE and A level qualifications; or
- Normally, two or more years of work experience at a managerial/supervisory/admin level relevant to the programme applied for. This must be evidenced via a personal statement, work experience form and successful interview, and supported by employment reference(s) indicating the duration of employment and the role.

You may be eligible to join a HND programme if you have previous learning that satisfies the learning outcomes and assessment criteria for the course you are interested in, normally with 90 credits (subject to syllabus studied previously). It is your responsibility to demonstrate this with objective evidence.

Prospective students who are not UK nationals, or who are UK nationals but do not have GCSE English Language at grades A to C, are required to take our English language assessment. If you hold IELTS grade 5.5, with both reading and writing at grade 5.5, you do not need to sit this assessment.

If you do not meet the required standard of English in the assessment, you will be offered an English language course to help you improve your English to the necessary level to gain admission to the Pearson HND in Business programme.

"I came to Regent College on Kingsbury with high goals. I became one of the students representative. The staff members from the reception and from the offices were absolutely punctual and receptive to all our problems. I would definitely recommend the course and encourage anyone interested in business to go forward and study a degree with Regent College London."

Adriana Lupu

BA (Hons) Business Management Degree with Foundation Year

"My name is Catalina Hutupasu and I was one of your students in my first year at Regent College London in 2015. I am now studying Top Up Year as I took one year gap to welcome my first baby. I would like to take this opportunity and thank you for all your help and guidance as I have finished in 2017 and have a MERIT on my HND Diploma. My very good impressions on the College, the professors at that time and my colleagues (Denisia, Andreea etc) made me convince my husband to enrol for the same course. He (Tamaru Hutupasu) is now finishing his second year."

Catalina Hutupasu

HND

"I am currently studying International Business Management Top Up at London Metropolitan University. I am very grateful to Regent College London. If it wasn't for Regent who accepted me to complete my 3 modules, I do not know what I would have done. I had gone to another college in Alperton but they wanted me to restart HND in Business all over again from the beginning. All they wanted was money and they did not care about me completing just the 3 modules. Regent College is one of the best colleges in London. They care about the students so much. I did not know there was such a college in Wembley. From the receptionist to the lecturers and Directors everyone was helpful. Well done and keep it up."

Esperance Muntu

HND

BA (HONS) ACCOUNTANCY WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

London Academic Centre

Covering the latest practices and theories of accounting, our **BA (Hons) Accountancy with Foundation Year** offers essential training for entry into this truly prestigious global profession, along with an impressive range of exemptions from professional accountancy body examinations.

Fundamental to planning and forecasting, budgeting and control, taxation and decision making, competent and resourceful accountants are essential to success in business and commerce.

The initial Foundation Year offers you an excellent grounding in the fundamentals of accounting and helps prepare you for degree level study. Our dedicated and experienced team will draw on the latest practices and theories of accounting.

You'll also be able to choose from a number of optional modules in your final year, which include (amongst others) taxation and audit.

Alongside developing your accountancy-related knowledge, we will help you develop lifelong learning skills so that you can reflect on, articulate, transfer and take ownership of the development of your skills, maximising your success.

Our **BA (Hons) Accountancy with Foundation Year** is designed to give you the academic knowledge and practical skills needed for a professional career in accountancy.

PROGRESSION OPPORTUNITIES

An accountancy degree will develop your understanding of accountancy practices, commerce, industry and finance.

Accountancy graduates will develop a variety of technical and transferable skills that are sought after by a wide range of business sector employers and organisations.

You will learn about commercial awareness and how businesses function, and gain numerical and quantitative skills linked to the business context.

You will be able to solve problems, analyse data and statistics, and have the ability to present information both orally and on paper.

You will also have the skills of attention to detail and strong organisational ability.

COURSE SPECIFICATION

 **COURSE DURATION:**
4 years

 **LEVEL:**
RQF Level 3-6

 **AWARDING BODY:**
University of Bolton

UCAS POINTS: 48

LEVEL 3: Any subjects are acceptable

GCSES

Five at grade C or above / grade 4 to 9

IELTS

5.0 with no less than 4.5 in any band (non-native speakers)

If you did not study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You will be required to attend an interview as part of the admissions process.

BA (HONS) BUSINESS MANAGEMENT WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

BUCKINGHAMSHIRE
NEW UNIVERSITY
EST. 1891

The **BA (Hons) Business Management with Foundation Year** allows you to develop your study skills and build confidence in your academic abilities, while identifying your own strengths and development needs for progression onto an undergraduate degree programme.

Two of the modules enable you to develop your general academic study skills and your employability skills. The other two modules aim to equip you with the more specialised skills and understanding necessary for progression on to a Level 4 business qualification (first year of the degree).

Students who do not have the required level of English language and maths for progression onto the undergraduate degree programme can still enrol by completing the Functional Skills Level 2 qualification in both English and maths by attending additional sessions.

On successful completion of the Foundation Year, you will have met the entry requirement for progression on to the undergraduate degree programme offered by Buckinghamshire New University.

Many of our students are in full-time employment or have family commitments. We strive for a diverse student group from a wide range of backgrounds and experiences. This helps to create a stimulating and supportive learning environment and is one of the reasons we offer flexible timetabling, including evening classes.

FOUNDATION YEAR

BA (Hons) Business Management with Foundation Year

MODULES
Preparing for success Knowledge and creativity
Introduction to business management
Preparing for success Self-development and responsibility
Inquiry-based learning

PROGRESSION OPPORTUNITIES

Foundation Years are specifically designed for progression to the three year degree. You can progress to career opportunities in management or develop your own business ambitions. The programme provides a grounding in all areas of business management and offers the opportunity to focus on a particular area for post-graduate study. Some of the career opportunities for Business Management graduates include:

- middle and senior management positions across all sectors
- advertising and marketing
- accountancy
- human resources
- banking
- management consultancy
- business journalism

COURSE SPECIFICATION

 **COURSE DURATION:**

FndCert INTERNATIONAL FOUNDATION PROGRAMME (BUSINESS MANAGEMENT)

FOUNDATION YEAR ROUTE

London Academic Centre

The **FndCert International Foundation Programme (Business Management)** is the ideal course for international students interested in studying business management in the UK. It is designed to introduce you to key topics in business management, help you improve your language skills, equip you with the academic skills that you will need and introduce you to Higher Education in the UK.

You will enjoy teaching from our academic faculty that is interactive and has a strong focus on communication and group work. You will not just be learning from our academic team, but also from your fellow students as you work together and support each other's progress. Studying in a foreign country is a great opportunity and can be a life-changing experience. It can be a challenge too, so you will get full support and encouragement to make the most of your time living and studying in your exciting new UK environment.

By doing the **FndCert International Foundation Programme (Business Management)** you can acquire a balance of business management knowledge, academic skills and English language. You will be able to develop your understanding of the key principles, practices and theories of business management. On successful completion of this Level 3 qualification, you can achieve an English level comparable to IELTS 6.0 or 6.5.

MODULES
Stage C for IFP and Pre-Masters (EFP4005)
Stage D for IFP and Pre-Masters (EFP4006)
Business In Practice (BMP3002)
Practical Digital Marketing (BMP3006)

NCUK INTERNATIONAL YEAR ONE IN BUSINESS

NCUK
THE UNIVERSITY CONSORTIUM

FOUNDATION YEAR ROUTE

The **International Year One programme (IYOne)** is an exciting and intensive full-time course that opens a new world of study options to international students.

IYOne is a first-year undergraduate equivalent programme that will give you the confidence, knowledge and core skills you will need to be successful at university. It will quickly improve your English language and academic study skills, while providing direct access into the second year of an undergraduate business degree course offered by NCUK Universities.

A popular benefit of International Year One is the small class sizes. Rather than sitting in big lecture halls with hundreds of other students, this provides much more focused learning from our expert tutors, where you can achieve your goals.

There are lots of benefits to studying the IYOne course including: studying with mentors from across the business world, the English for Academic Purposes (EAP) module that is accepted by UK universities, and it provides an alternative pathway if you did not meet the requirements of your preferred university.

MODULES
SEMESTER 1
Business Economics
Business Skills
Financial Accounting
Organisational Behaviour
SEMESTER 2
Management Accounting
Management Themes & Case Studies
Marketing
Quantitative Methods for Business
English for Academic Purposes
Thinking into Character

PROGRESSION OPPORTUNITIES

The NCUK International Year One programme will prepare you for onward study and is equivalent to the first year of an undergraduate degree. After completing the course, you will go on to start the second year of an undergraduate degree course.

On successful completion of this programme, you will be able to:

- Learn effectively and feel confident to go on to undergraduate courses in NCUK partner universities.
- Demonstrate specific subject knowledge including the ability to make sound judgements in accordance with the basic concepts and theories of business, at a level comparable to that of ‘home’ students at the time of entry to the second year of an appropriate degree courses.
- Employ a wide range of generic and specialised skills including the ability to present, evaluate and interpret both quantitative and qualitative data.
- Make effective use of a range of generic and subject specific study skills and information and communication technologies.
- Produce innovative and original work.
- Demonstrate their learning through a range of learning assessment methods.

At your NCUK university you will have access to top -level careers advice and guidance to help you focus on the right job for you and to stand out from the crowd in an increasingly competitive jobs market.

COURSE SPECIFICATION

 **AWARDING BODY:**
NCUK

 **ASSESSMENT:**
25% coursework and
75% written exam

 **MODE OF DELIVERY:**
Full-time

 **INTAKES:**
September, January, April, and June

 **FEES:**
£12,450 per year

ENTRY REQUIREMENTS

You should have achieved at least an NCUK EAP ‘D’ grade or hold an acceptable equivalent alternative English language qualification.

You have achieved Grade ‘B’ in (I)GCSE Mathematics or equivalent. NCUK IFY Mathematics or NCUK International Foundation Year Half Mathematics Grade ‘D’ may also be used. For the Business Management route, (I)GCSE Grade C is sufficient.

You have obtained a minimum of 48 NCUK foundation points with a D in at least 2 subjects following study of the NCUK International Foundation Year programme.

OR obtained a minimum of grade ‘D’ in two relevant UK recognised ‘A’ levels.

OR met one of NCUK’s country-specific entry requirements, which can be found here.

You have completed a satisfactory entry interview designed to assess motivation, post-diploma study plans and preparedness for the programme.

If you are applying from outside of the published entry requirements, you may also be eligible for the qualification on a case-by-case basis.

BA (HONS) ACCOUNTANCY

BACHELOR'S DEGREE

London Academic Centre

Covering the latest practices and theories of accounting, our **BA (Hons) Accountancy** offers essential training for entry into this truly prestigious global profession, along with an impressive range of maximum exemptions from professional accountancy body examinations.

Fundamental to planning and forecasting, budgeting and control, taxation and decision making, competent and resourceful accountants are essential to success in business and commerce.

The course draws on the latest practices and theories of accounting and covers the two key areas of management accounting and financial accounting and reporting.

You'll also be able to choose from a number of optional modules in your final year which include (amongst others) taxation and audit.

Alongside developing your accountancy-related knowledge, we will help you develop lifelong learning skills so that you can reflect on, articulate, transfer and take ownership of the development of your skills, maximising your success.

Our **BA (Hons) Accountancy** is designed to give you the academic knowledge and practical skills needed for a professional career in accountancy.

PROGRESSION OPPORTUNITIES

An accountancy degree will develop your understanding of accountancy practices, commerce, industry and finance.

Accountancy graduates will develop a variety of technical and transferable skills that are sought by a wide range of business sector employers and organisations.

You'll learn about commercial awareness and how businesses function, and gain numerical and quantitative skills linked to the business context.

You'll be able to solve problems, analyse data and statistics, and have the ability to present information both orally and on paper.

You'll also have the skills of attention to detail and strong organisational ability.

BSc (HONS) BUSINESS MANAGEMENT (FINANCE)

BACHELOR'S DEGREE

London Academic Centre

The Finance Pathway within the Business Management Degree places focus on developing your knowledge and understanding of business and finance through a stimulating programme of study that is informed by both research and practice.

Furthermore, the course will provide you with the opportunities to explore and critically apply concepts, theories and models used in business and management. At Regent College London, you will be sure to receive a thorough understanding of the course, taught by highly experienced tutors.

Finance is a complex subject that will ensure you learn, develop and progress within your current skillset, in addition to gaining new knowledge and understanding of the intricacies of Finance.

One main feature of the pathway is the practical and professional skills that students can gain through communicating information and ideas in a professional manner using appropriate strategies. You will also effectively apply flexibility and initiative in developing effective solutions to business problems.

BA (HONS) BUSINESS MANAGEMENT

TOP UP DEGREE

BUCKINGHAMSHIRE
NEW UNIVERSITY
EST. 1891

The **BA (Hons) Business Management (Top-up)** has been designed specifically to give you the knowledge and practical understanding employers look for in today's ever changing business climate. You will explore key topics including leadership, innovation, marketing and change – vital concepts in the rapidly transforming world of business in any industry.

Whether your ambition is to take on a senior leadership role in a large organisation, or to drive forward the success of your own business, this course will build on your previous studies in business and take your insights and understanding to the next level. Through practical application and business-focused assessments, you will develop skills and knowledge you can apply immediately in the real world.

The **BA (Hons) Business Management (Top-up)** is a progression route from a Higher National Diploma (HND) in Business or a business related course, to gain a full degree awarded by Buckinghamshire New University, our validation partner.

WHO IS THE COURSE FOR?

This course is particularly aimed at those who already have a broad business-related HND, Foundation Degree or equivalent, who want to go on to build on their previous experience and skills, as well as develop critical, analytical, creative and reflective approaches to business. **Offering flexible timetables, you can fit your studies around your life, with study options including evenings and weekends.**

STUDY MODULES:

1. Strategic marketing

(MG624) – 30 credits

2. Managing innovation in business

(BM627) – 30 credits

3. Leading and managing change

(MG625) – 30 credits

4. Corporate strategy and governance

(BM628) – 30 credits

PROGRESSION OPPORTUNITIES

You'll be well placed to enter employment in management-related positions in both public and private sectors. Graduates have secured employment in local authorities, retail management, financial services, media services and other sectors. Other graduates have gone on to start their own businesses or progressed to further study at post-graduate level.

COURSE SPECIFICATION

 **COURSE DURATION:**
1 year

 **LEVEL:**
RQF Level 6

 **AWARDING BODY:**
Buckinghamshire New University

 **ASSESSMENT:**
Assessments are by coursework and examination with the majority of modules being assessed by coursework only

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**

- Two days per week
- Two evenings with a Saturday

 **INTAKES:**
September and April

 **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

LEVEL 5 WITH A GOOD LEVEL OF BUSINESS TOPICS IS REQUIRED:

- a pass in an HND
- a Foundation Degree
- a recognised UK degree or overseas equivalent

Evidence of English proficiency (Upper B2). If you have studied an English HND for two years, your completion of the HND meets this requirement.

You will also need to attend an academic interview at which you will need to show a good conceptual understanding of business and study expectations at Level 6.

BSc (HONS) BUSINESS MANAGEMENT

TOP UP DEGREE

London Academic Centre

Every organisation needs effective and skilled management. The **BSc (Hons) Business Management (Top-up)** offers graduates the opportunity to develop a career with global possibilities in a broad range of areas. On the course, you'll be exposed to key concepts in areas such as people management, business law, marketing, strategic management, information systems and big data, project management, finance and innovation and enterprise. Plus, on successful completion, you'll also receive a CMI Level 5 Award in Leadership and Management (subject to approval), giving you an impressive dual-award.

Business management qualifications open doors and are considered essential whether you are looking to pursue a career in business, or advance in your current career.

The course is designed to help you to understand the business environment and the needs of employers in local, national and international contexts.

We'll support you to develop highly sought-after skills such as communication, data analysis, time management, team working and problem solving.

BUSINESS MANAGEMENT SPECIALISMS

As well as the Business Management top-up, we offer several specialisms or pathways that you can apply for:

Marketing
People Management
Retail

PROGRESSION OPPORTUNITIES

Our BSc (Hons) Business Management (Top-Up) course is designed to provide a broad understanding of business functions within the business and commercial world. You'll also have the opportunity to transfer to individual pathways in specific areas of business if you wish.

The course offers you a route into general management as well as specialist areas, such as business accounting and finance, enterprise, human resource management, business law, marketing, retail or supply chain management.

In addition to nurturing academic and sector specific knowledge, the programme aims to support your development of key employability skills, such as critical thinking, problem solving and data analysis. Overall, the course aims to give you an essential appreciation of the skills needed to thrive and adapt in the changing world of work.

MSc INTERNATIONAL MANAGEMENT

MASTER'S DEGREE

London Academic Centre

The **MSc International Management degree** offers a comprehensive overview of global management theories and practices and the opportunity to gain an in depth understanding of the different national and cultural contexts in which firms operate, whilst developing and enhancing analytical and research skills. The course includes a range of relevant subject areas in corporate strategy, international human resource management, sustainability, business innovation as well as finance and accounting that is aimed at developing the necessary knowledge, management and decision making skills that can be applied to international settings. The breadth of topics, combined with an international perspective, prepares you for a variety of roles in an increasingly globalised job market.

Being intellectually stimulating and challenging, the course opens up career development opportunities as well as the opportunity to enhance your knowledge and career prospects in areas of further study.

Contemporary businesses need managers who can adapt to the ever-changing complex challenges that shape today's globalised marketplace. The **MSc in International Management** is a notable qualification to acquire as it takes your employability to global fronts.

By empowering you with necessary business skills and knowledge, the course offers you the opportunity to gain a globally recognised qualification and make your mark wherever you decide.

MSc ACCOUNTANCY AND FINANCIAL MANAGEMENT

MASTER'S DEGREE

Teaching Intensive, Research Informed

London Academic Centre

The **MSc Accountancy and Financial Management** course offers the opportunity to explore the principles and practice of financial management and accounting, the different contexts in which firms operate, and how they are managed. It will equip you with applied skills involved in financial reporting and financial management, as well as wider management issues such as corporate and social responsibility, business ethics, risk and business strategy, financial performance, and taxation/auditing. Being intellectually stimulating and challenging, the course opens up career development opportunities as well as the opportunity to enhance your critical and investigative skills, and could benefit your professional practice.

The **MSc in Accountancy and Financial Management** is great qualification to acquire as it will take your employability to global fronts. Successful completion of this MSc will provide you with necessary business skills and knowledge needed for roles in financial analysis, investment banking, management, public administration and accountancy, and will be useful if you want to pursue a career in industry, commerce or with professional services organisations.

MODULES
Advanced Financial Management (option) ACC7504
Advanced Performance Management (option) ACC7505
Advanced Taxation (option) ACC7506

HND IN HEALTH CARE PRACTICE (INTEGRATED HEALTH AND SOCIAL CARE)

HIGHER NATIONAL DIPLOMA

Studying our **HND in Health Care Practice (Integrated Health and Social Care)** will help you gain the practices needed to make a positive impact in the lives of vulnerable individuals.

The HND in Health Care Practice will give you a good basis of the Healthcare Industry, allowing you to explore a range of modules. The Course is designed to develop students as professional, self-reflecting individuals able to meet the demands of employers in the healthcare sector and adapt to a constantly changing world. The qualifications aim to widen access to higher education and enhance the career prospects of those who undertake them.

The key aim is allowing students with the Health Care Practice skills, knowledge and the understanding necessary to achieve high performance in the global health and social care environment. In addition, students will be provided insight and understanding into the diversity of roles within the healthcare sector, recognising the importance of collaboration at all levels.

The Pearson **HND in Health Care Practice** course is ideal for those who would like to gain the first two years of a Health Care Practice degree, and then move onto a 1 year top-up at University to gain a full Bachelor's degree.

WHO IS THE HND IN HEALTH CARE PRACTICE (INTEGRATED HEALTH AND SOCIAL CARE) FOR?

Awarded by Pearson, the HND in Health Care Practice is aimed at students wanting to continue their education through applied learning and designed for students who wish to pursue or advance their career in healthcare practice or related fields.

Our highly experienced and dedicated team will lead you in an exploration of the principles of care, professional values, attitudes and behaviour, ethical practice of care, and a range of other intriguing topics.

Our focus is on helping you become a knowledgeable, compassionate, and person-centred care professional.

FndCert INTERNATIONAL FOUNDATION PROGRAMME (HEALTH AND HUMAN SCIENCES)

FOUNDATION YEAR ROUTE

Teaching Intensive, Research Informed

London Academic Centre

The **FndCert International Foundation Programme (Health and Human Sciences)** is the ideal course for international students interested in studying health and human sciences or health and social care in the UK. It is designed to introduce you to key topics in health and human sciences, help you improve your language skills, equip you with the academic skills that you will need and introduce you to Higher Education in the UK.

You will enjoy teaching from our academic faculty that is interactive and has a strong focus on communication and group work. You will not just be learning from our academic team, but also from your fellow students as you work together and support each other's progress. Studying in a foreign country is a great opportunity and can be a life-changing experience. It can be a challenge too, so you will get full support and encouragement to make the most of your time living and studying in your exciting new UK environment.

The **FndCert International Foundation Programme (Health and Human Sciences)** is an excellent preparation for further study in a health and human sciences related subject. On successful completion of this Level 3 qualification, you can achieve an English level comparable to IELTS 6.0 or 6.5. We will support you in the development of essential skills, which can prepare you for academic study as well as future employment.

On completing this programme, you will be able to demonstrate the knowledge and understanding of key concepts, practices and principles in health and human sciences. Our teaching will be interactive and inclusive with a focus on developing your communication as well as your skills and knowledge. We will help you develop essential English, academic and professional skills, such as academic writing, reading, listening, presenting and the application of ICT.

MODULES
The Individual and Society (FND3002)
Research Methods in Social Science (FND3003)
World of work (FND3004)
Reading Contemporary Society (FND3005)

BA (HONS) SPORTS MANAGEMENT WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

St Mary's
University
Twickenham
London

The **BA (Hons) Sports Management with Foundation Year** offers you the knowledge and skills you need to be a successful manager within the sports business, in a large or small company; in the private, public or third sectors; at home or abroad.

All teaching and learning are delivered via flexible timetables where you can fit your studies around your life- with study flexible times including evenings and weekends. You will be assessed through a range of assessments including business reports, essays, practical exercises, presentations, case studies, examinations, assessed blogs, seminar, and simulation exercises.

The foundation year allows you to develop your study skills including thinking critically, creatively, and ethically. Academic writing and personal and professional development will also start you off in the best possible way for your degree.

Sports Management degree is particularly attractive to employers in the sports and leisure industries, both in the commercial and not-for-profit sectors. Studying this degree programme will equip you with the knowledge and skills required to successfully embark on a career in a wide range of roles and functions.

A distinctive feature of the Sports Management programme is that you will undertake a work placement as part of your degree, allowing you to combine academic theory within a practical working environment. Your placement will provide you with new skills, expertise and networks that can help to enhance your career opportunities within the sports industry. You will organise your placement with the help of the Workplace Learning Team and can choose to do it in a location that suits you.

BSc (HONS) SPORT AND EXERCISE NUTRITION WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

St Mary's
University
Twickenham
London

With exercise and health constantly being promoted by the Government and society, there has never been a better time to study a **Sport and Exercise Nutrition course**. Studying this field will provide you with the essential skills and training that are recognized by professional bodies, allowing you to stand out as a specialist in the world of employment.

This programme provides an insight into why exercise and nutrition are crucial to our health. From understanding the relationship between psychology and sport to food science, you will deepen your understanding of the effects of regular exercise and sports nutrition. Most of all, why they are essential to maintaining healthy lifestyles.

Lower entry enables students to study Sport and Exercise Nutrition without the previous qualifications or achievements that most other colleges or universities across the UK require. With the help of the Foundation year, you will learn the basics and core modules, providing you the opportunity to take your first steps into this exciting, global business.

- IELTS score of 5.0 (no grade below 4.5)

Alternative assessment:

For mature students (those over 21 years old), or those requiring an alternative kind of assessment:

- You must take part in an academic interview to demonstrate your non-academic achievements, such as work experience.
- IELTS score of 5.0 (no grade below 4.5)

BSc (HONS) SPORT AND EXERCISE SCIENCE WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

St Mary's
University
Twickenham
London

The **BSc (Hons) Sport and Exercise Science with Foundation Year** covers a range of modules that will equip you for the world of work. Physical activity and sports play a leading role in today's global society from coaching and helping athletes recover from injury to competing in international events.

You will gain access to a faculty of industry experts and the best tutors in their academic field. Our flexible teaching deliver method allows you to decide how and when to study.

The modules cover areas such as Physiology of Exercise, Sports Biomechanics and Environmental Physiology. Our facilities and experienced academic tutors combined will ensure you get the most from your time with Regent College London and prepare you for your future career.

FOUNDATION YEAR

MODULES
Introduction to Research Methods and Individual Project (Core)
The Chemistry of Nature (CORE)
Foundation of Life (Core)
Principles of Physics and Mathematics (Core)
Critical Skills in Science (Core)

YEAR ONE

MODULES
Introduction to Research (Core)
Physiology of Exercise (Core)
Fundamentals of Sport Psychology and Skill Acquisition (Core)
Functional Anatomy (Core)
Fundamentals of Biomechanics (Core)
Practical Field Tests in Sport (Core)

YEAR TWO

MODULES
Research Methods (Core)
Physiology of Training (Optional)
Social Psychology of Sport (Optional)
Neuromechanics of Human Movement (Optional)
Sports Biomechanics (Optional)
Testing and Monitoring in Sport (Optional)
Contemporary Issues in PE and Sport (Optional)
Skill Acquisition 1 (Optional)
Notational Analysis (Optional)
Experience and Employment in Sport (Optional)

YEAR THREE

MODULES
Research Project (Core)
Applied Sport and Exercise Physiology (Optional)
Environmental Physiology (Optional)
Applied Sport Psychology (Optional)
Experimental Biomechanics (Optional)
Applied Biomechanics (Optional)
Performance Analysis (Optional)
Professional Observation (Optional)
Issues in Sport, Health, and Exercise (Optional)
Advanced Skill Acquisition (Optional)
Advanced Contemporary Issues in PE and Sport (Optional)

PROGRESSION OPPORTUNITIES

As there is a growing interest in sport and exercise science, there are increased job opportunities available. Upon graduating, you can explore a range of job roles, which include:

- Exercise physiologist
- Fitness centre manager
- Personal trainer
- Primary school teacher
- Secondary school teacher
- Sports administrator
- Sports coach
- Sports development officer

COURSE SPECIFICATION

 **COURSE DURATION:**
4 years

 **LEVEL:**
RQF Level 3-6

 **AWARDING BODY:**
St Mary's University

 **ASSESSMENT:**
Course work and written exam plus Formative Assessment (FAS)

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Weekdays, evenings and weekends

 **INTAKES:**
September, January, April, and June

 **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

- 48 UCAS points (or equivalent)
- GCSE Maths grade C/4 and English grade C/4
- IELTS score of 5.0 (no grade below 4.5)

Non-standard applicant requirements:

Access qualifications:

- 45 credits on your Access Course
- IELTS score of 5.0 (no grade below 4.5)

Alternative assessment:

For mature students (those over 21 years old), or those requiring an alternative kind of assessment:

- You must take part in an academic interview to demonstrate your non-academic achievements, such as work experience.
- IELTS score of 5.0 (no grade below 4.5)

BSc (HONS) HEALTH AND SOCIAL CARE

BACHELOR'S DEGREE

Teaching Intensive, Research Informed

London Academic Centre

Health and Social Care relates to services that are available from health and social care practitioners that provide health care support to a range of individuals with issues faced by vulnerable individuals and groups such as children, older people and those with mental illness and disabilities.

Delivered in partnership with the University of Bolton, the BSc (Hons) Health and Social Care is delivered in excellent teaching facilities which provide a stimulating learning environment that will be both engaging and memorable.

This course offers you the opportunity to develop the values, practice skills and knowledge necessary for a successful career in the global health and social care environment.

Our highly experienced and dedicated team will lead you in an exploration of the principles of care, professional values, attitudes and behaviour, ethical practice of care, promoting physical and mental health and emotional wellbeing and safeguarding and promoting diversity and inclusion.

Our focus is on helping you become a knowledgeable, compassionate, and person-centred care professional.

Make a difference to the daily lives of vulnerable people by studying the **BSc (Hons) Health and Social Care**.

MODULES
Making Sense of Society: The Sociological Imagination (LC473) - Core
Making Sense of Society: Understanding the Social World (LC470) - Core
Policy and Strategy (LC482) - Core
Policy in Context (LC475) - Core
Sociology of Health (LC459) - Core
Wellbeing in Society (LC460) - Core
Contemporary Debates (LC462) - Core
Media, Communication and Society (LC480) - Core
Qualitative Research Methods for Social Scientists (LC571) - Core
Quantitative Research Methods for Social Scientists (LC572) - Core
Ethical Issues in Health and Social Sciences (LC567) - Core
Understanding the Work Environment (LC565) - Core
Employability and Professional Development (LC580) - Core
'Race' Ethnicity and Migration (LC561) - Core
Citizenship, Community and Welfare (LC564) - Core
Gender and Sexuality in Society (LC560) - Optional
Sport, Diversity and Well-being (SL517) - Optional
Dissertation (LC661) - Core
Applied Dissertation (LC683) - Core
Ageing through the Life-Course (LC664) - Core
Leadership and Teamwork (LC665) - Core
Disability in Mental Health and the Criminal Justice System (LC654) - Optional
Body Culture and Society (LC663) - Optional
Global Health and Society (LC666) - Optional
Funding for Sport (SL617) - Optional

PROGRESSION OPPORTUNITIES

A degree in Health and Social Care looks at health in its broad context and investigates contemporary health issues. There's a growing demand for health and social care workers who are not restricted by boundaries and can work flexibly to accommodate the increasingly complex health and social care needs of individuals, families and communities.

This degree will also enable you to develop a range of key transferable employability skills, including written and verbal communication skills, IT skills, and the ability to work independently and in a team, research and data analysis skills, and the ability to provide support and guidance.

COURSE SPECIFICATION

-  **COURSE DURATION:**
3 years
-  **LEVEL:**
RQF Level 4-6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Exams, essays, reports and presentations
-  **MODE OF DELIVERY:**
Full-time
-  **TIMETABLE OPTIONS:**
Week days, evenings and weekends
-  **INTAKES:**
September, January, April, June and July
-  **FEES:**
£9,000 per year (Home fees)
£12,450 per year (Overseas fees)

ENTRY REQUIREMENTS

UCAS POINTS: 96
LEVEL 3: Any subjects are acceptable

GCSEs
Five at grade C or above / grade 4 to 9

IELTS
6.0 with no less than 5.5 in any band (non-native speakers)

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

If you didn't study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You'll be required to attend an interview as part of the admissions process.

BSc (HONS) HEALTH AND SOCIAL SCIENCE

BACHELOR'S DEGREE

BUCKINGHAMSHIRE
NEW UNIVERSITY
EST. 1891

The **BSc (Hons) Health and Social Science Degree** offers an excellent opportunity to tailor your learning experience to meet personal, academic and career goals. Graduates will be equipped with valuable practical experience, special work-related skills training, and an increased potential for employment.

The interdisciplinary programme draws on diverse academic disciplines such as public policy, psychology, criminology, communication studies, public health, economics, exercise science, human performance, linguistics, political science, psychology and sociology. You will gain a critical comprehension of health and social care policy, theory and practice together with an understanding of how complex groups and societies function interact and change.

The programme takes a flexible, work-based, approach to teaching and learning, which encourages reflective practice. You will be assessed through examinations, essays, short answer papers, reports and reviews, presentations, case studies, group assessment projects, debates and health profiles.

You can choose from a range of optional modules in the final year to tailor the course to suit your personal interests, improve strengths and fine-tune your career path.

YEAR 1

MODULES
Making Sense of Society: Understanding the Social World (LC473)
Policy in Context (LC472)
Understanding Sport Development (SL415)
Contemporary Debates (LC462)
Making Sense of Society: The Sociological Imagination (LC473)
Policy and Society (LC472)
Sociology of Health (LC459)
Wellbeing in Society (LC460)

YEAR 2

MODULES
Qualitative Research Methods for Social Scientists (LC571)
Quantitative Research Methods for Social Scientists (LC572)
Race Ethnicity and Migration (LC561)
Citizenship, Community and Welfare (LC564)
Ethical Issues in Health and Social Sciences (LC567)
Gender and Sexuality in Society (optional) (LCF60)
Sport, Diversity and Well-being (optional) (SL517)
Understanding the Work Environment (LC565)
Employability and Volunteering (LC570)

YEAR 3

MODULES
Dissertation (LC661)
Funding for Sport (optional) (SL617)
Ageing Well Through the Life-Course (LC664)
Global Health and Society (optional) (LC666)
Leadership and Teamwork (optional) (LC665)
Body Culture and Society (optional) (LC663)
Disability in Mental Health and the Criminal Justice System (optional) (LC654)

COURSE SPECIFICATION

 **COURSE DURATION:**
3 years

 **LEVEL:**
RQF Level 4-6

 **AWARDING BODY:**
Buckinghamshire New University

 **ASSESSMENT:**
Mixture of written assessments, exams and practicals

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**

- Two evenings
- Saturday

 **INTAKES:**
February and September

 **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

UCAS TARIFF SCORE: 80

A-LEVELS
Minimum of two full A-levels (or equivalent)

- Proficiency in the English language

If you do not meet the entry requirements you may be eligible for the Health and Social Science with Foundation Year.

BSc (HONS) HEALTH AND SOCIAL CARE TOP-UP

TOP UP DEGREE

London Academic Centre

The **BSc (Hons) Health and Social Care Top-up degree** will give you the knowledge and practical understanding employers look for in today's healthcare climate. You will explore key topics including safeguarding children, care of the older person, contemporary mental health, and a range of other health and social care topics.

Whether your ambition is to take on a senior leadership role for a healthcare provider or to drive forward the success of your own healthcare business, this Top-Up Degree will build on your previous studies in healthcare and take understanding to the next level. The course offers you the opportunity to build on previous qualifications to develop the values, skills, and knowledge essential to good health and social care practice, opening the door to a huge range of employment opportunities.

This one-year course is particularly aimed at those who wish to develop critical, cognitive, professional, and intellectual approaches to healthcare. The **health and social care top-up** is suitable for those who already have a broad healthcare-related HND, foundation degree, or Level 5 equivalent. We offer flexible timetables to help you fit your studies around your busy life, and our London campuses run weekend, weekday, and evening study options.

MODULES
Research Proposal/Methods (HSO6000) (Core)
Compassionate Health and Social Care (HSO6001) (Core)
Dissertation/Research Project (HSO6002) (Core)
Safeguarding Children (HLT6027) (Optional)
Working With Children and Families (HLT6125) (Optional)
Safeguarding Vulnerable Adults (HLT6012) (Optional)
Care of the Older Person (HLT6015) (Optional)
Contemporary Mental Health (HLT6060) (Optional)

PROGRESSION OPPORTUNITIES

Throughout the course, you will develop new skills whilst enhancing your current knowledge. Upon successful completion, you'll be better placed to enter employment within the healthcare sector and also pursue further study is a popular option for health and social care graduates.

Graduates of healthcare degrees can secure employment in some of the following areas:

- health education and promotion
- health research
- community mental health
- commissioning and care management services
- Social work (additional training is required)
- Nursing (additional training is required)

COURSE SPECIFICATION

 **COURSE DURATION:**
1 year

 **LEVEL:**
RQF Level 6

 **AWARDING BODY:**
University of Bolton

 **ASSESSMENT:**
Written exams, course work, practical exams

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Weekdays, evenings and weekends

 **INTAKES:**
September, January, April, and June

 **FEES:**
£9,250 per year (Home fee)

ENTRY REQUIREMENTS

- You are normally expected to have completed a relevant qualification at Level HE5, such as a Foundation Degree or HND, or professional qualification at an equivalent level.
- If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd. You may be required to attend an interview and/or provide a portfolio of work.

MSc IN SOCIAL CARE, HEALTH AND WELLBEING DEGREE

MASTER'S DEGREE

London Academic Centre

Our **MSc in Social Care, Health and Wellbeing degree** will give you an advanced awareness and understanding of the health and social care sector and the challenges that it faces. Specialist modules will broaden your understanding of key areas such as equality and diversity, integration, and collaboration. You will also develop enhanced critical and evaluative awareness of the current and emerging issues within health and social care practice.

Once you have qualified, you will have gained specific academic knowledge and practical skills that can be applied in your existing or future career. Alongside this, we will help you build lifelong learning skills that you can reflect on, articulate, and translate into everyday life.

The demand for skilled and qualified health and social care workers is increasing and is fostered by transformative changes in the healthcare sector. After successfully completing this programme, you will be able to demonstrate systematic knowledge and understanding of a range of health and social care-related principles, concepts, and values.

We focus on supporting you to integrate these ideas with your existing knowledge of social care, health, and wellbeing, helping you to achieve career success and champion the uniqueness of individuals, carers, and their families.

MODULES
Dissertation (HSC7006)
Postgraduate Preparation for Research Design (HSC7004)
Critical Reading and Writing Skills (HSC7002)
Equality and Diversity for Human Services (HSC7003)
Leadership and Innovation (HSC7005)
Contemporary Issues, Policy, and Practice (HSC7001)
Collaborative and Integration in Health and Social Care (HSC7007)
Person-Centered Approaches and Service User Involvement in Health and Social Care (HSC7008)

PROGRESSION OPPORTUNITIES

The MSc in Social Care, Health and Wellbeing is well recognised qualification that provides the opportunity to develop your knowledge for an existing role, improve your prospects, or make a career change. It can also be a first step towards an academic career.

This qualification can take you into many different fields – both in the UK and abroad – including multi-agency teams, health promotion projects, refugee and asylum services, hospitals, sheltered accommodation, hospices, day centres, and residential care units.

Graduates of this programme may also choose to progress to study at doctorate-level in health and social care, or a related field.

COURSE SPECIFICATION

 **COURSE DURATION:**
1 year

 **LEVEL:**
RQF Level 7

 **AWARDING BODY:**
University of Bolton

 **ASSESSMENT:**
Written exams, course work, practical exams

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Weekdays, evenings and weekends

 **INTAKES:**
September, January, April, and June

 **FEES:**
£7,000 per year (Home fee)
£12,450 per year (Overseas fee)

ENTRY REQUIREMENTS

You are normally expected to have successfully completed an honours degree (or equivalent) in a relevant subject and have appropriate work experience. You may be required to attend an interview and/or provide a portfolio of work.

- If English is not your first language you will need to complete a Secure English Language Test at IELTS 6.0 or equivalent with no band less than 5.5.
- If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.
- You may be required to attend an interview and/or provide a portfolio of work.

"The great thing about Regent College London is its campus location in central London. The newly refurbished campus is well equipped with state of the art technology. Our teachers did an awesome job during the COVID-19 pandemic by keeping the class running flawlessly through digital lessons."

Rashed Haider

BEng (Hons) Software Engineering with Foundation Year

SCHOOL OF ENGINEERING AND COMPUTING

The School of Engineering and Computing brings together the latest insights from engineering, computing, and digital technologies, such as software development, artificial intelligence, future applications, and creative sciences.

As one of the newest schools, formed by merging two former subject areas to offer a wealth of academic and practical knowledge with enhanced resources, the school provides an excellent all-around learning environment for its students. We are committed to developing the next generation of high-achieving, ambitious, confident professionals who will shape business and society.

Studying our programs will equip you with the knowledge and skills that will enable you to extend your development capabilities and give you real experience in real-life scenarios. It is an excellent way for prospective employers to assess your skills for your first job or career development.

HND IN DIGITAL TECHNOLOGIES (GENERAL)

HIGHER NATIONAL DIPLOMA

Digital Technology is based within one of the world's leading industries. Technology is a sector that is constantly evolving and developing, and the **HND in Digital Technologies** is the ideal course to help you prepare for a career in Digital Technology.

The Digital Technology Course equips you with a high level of computing skills as it underpins the fundamental theories that are used within the sector. The Higher National Diploma will give students the opportunity to gain in depth knowledge by covering a range of computing modules. Upon gaining this Level 4 and 5 Vocation, you will be able to progress to a full Bachelor's Degree, by completing a Top-up Degree, if you wish to do so. Regent College London offers HNDs in a range of subject areas and are sure to help further your interest in the industry you wish to work in.

At Regent College London, we offer study classes, which include Weekday, Weekend and Evening Classes to help you fit your studies around busy life commitments!

WHO IS THE HND IN DIGITAL TECHNOLOGIES (GENERAL) COURSE FOR?

This Pearson Awarded HND Course is ideal for individuals who would like to gain a sound understanding of essential computing and technological skills. This is a qualification that is highly respected by employers in all areas of the Technology Industry. Students on this HND Course are introduced to the main areas of Technology, such as Cyber Security, Project Management and Emerging Technologies.

The **HND in Digital Technologies** is organised in a skill and knowledge building structure to help ensure success in your career. Some of the key skills you can gain from this qualification include self-management, critical thinking and leadership skills.

The course is ideal for those who would like to gain the first two years of a Digital Technology Degree, and then move onto a 1 year top-up at University to gain a full undergraduate degree.

YEAR 1

UNIT	TITLE
UNIT 1	Professional Practice in the Digital Economy (Core/Mandatory)
UNIT 2	Innovation & Digital Transformation (Core/Mandatory)
UNIT 4	Programming (Optional)
UNIT 8	Security (Optional)
UNIT 9	Networking (Optional)
UNIT 10	Database Designs & Development (Optional)
UNIT 16	Website Design & Development (Optional)
UNIT 18	Project Management (Optional)

YEAR 2

UNIT	TITLE
UNIT 19	Business Intelligence (Core/Mandatory)
UNIT 20	Internet of Things (Core/Mandatory)
UNIT 21	Emerging Technologies (Core/Mandatory)
UNIT 22	Work-based Learning in the Digital Economy (Optional)
UNIT 27	Advanced Programming (Optional)
UNIT 25	Information Security Management in the Cloud (Optional)

PROGRESSION OPPORTUNITIES

This Higher National Diploma prepares students for a wide range of employment opportunities across private and public sector organisations. Job roles for successful candidates include:

- Data Administrator
- Systems Analyst
- Software Developer
- IT Consultant
- Web Analytics Officer

Further study and experience in Digital Technology will also open up to roles such as IT Director and UX Specialist.

COURSE SPECIFICATION

 **COURSE DURATION:**
2 years

 **LEVEL:**
RQF Level 5

 **AWARDING BODY:**
Pearson

 **ASSESSMENT:**
Assignments/coursework/
controlled assessments

HND IN ENGINEERING

HIGHER NATIONAL DIPLOMA

Regent College London (RCL) offers a **Higher National Diploma (HND) in Engineering** that blends study with practical learning. It is ideal for anyone looking to take their first steps into higher education, with a hands-on approach, before either going on to employment or a degree.

Our HND in Engineering is a recognised and respected qualification within the engineering sector. The course provides all the essential skills, knowledge and techniques required to begin your career with a solid grounding. By the end of the course, you will have gained a balanced overview of the sector, a strong level of understanding of the essentials, as well as the core skillset to continue to learn and develop as a professional.

The HND in Engineering option is designed to help set you apart from the crowd. Validated by Pearson, the diploma is a two-year, full-time course that has been developed to suit both aspiring engineers and those currently working in the sector. Irrespective of what sort of engineering interests you, this course will help you to achieve your goals. It offers a strong sector-related emphasis on practical, academic and management skills development and is right for anyone wanting a start in the sector.

The course is ideal for those who would like to gain the first two years of an Engineering Degree, and then move onto a one-year, top-up at university to gain a full undergraduate degree.

**THE ELECTRICAL/ELECTRONIC HND ENGINEERING
CONSIST OF FOLLOWING UNITS:**

UNITS	MODULES
Unit 34	Research Project (Mandatory)
Unit 35	Professional Engineering Management (Pearson-set) (Mandatory)
Unit 39	Further Mathematics (Mandatory)
Unit 44	Industrial Power, Electronics and Storage (Mandatory)
Unit 45	Industrial Systems (Optional / Specialist)
Unit 47	Analogue Electronic Systems (Optional / Specialist)
Unit 53	Utilisation of Electrical power (Optional / Specialist)

MECHANICAL ENGINEERING UNITS ARE:

UNITS	MODULES
Unit 34	Research Project (Mandatory)
Unit 35	Professional Engineering Management (Pearson-set) (Mandatory)
Unit 36	Advanced Mechanical principles (Mandatory)
Unit 37	Virtual Engineering (Mandatory)
Unit 39	Further Mathematics (Mandatory)
Unit 45	Industrial Systems (Optional / Specialist)
Unit 64	Thermofluids (Optional / Specialist)

PROGRESSION OPPORTUNITIES

This HND prepares students for a wide range of employment opportunities across private and public sector organisations. Job roles for successful candidates include:

- Electronic Engineer
- Mechanical Engineer
- Automotive Engineer
- Maintenance Engineer

Further study and experience in Engineering will also direct access to roles such as Senior Quality Engineer and Senior Geotechnical Engineer.

BEng (HONS) SOFTWARE ENGINEERING WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

Retail, manufacturing, defence, healthcare, education – most sectors of government and industry rely on software systems, and the professional, competent and creative software engineers who develop and maintain them.

The **BEng (Hons) Software Engineering with Foundation Year** degree offers you the skills and knowledge needed to succeed in this field.

Concerned with the building and maintenance of software systems and other computer-based solutions, software engineering is a truly global industry. By examining all elements of the process – from initial understanding of the problem, through analysis, design, and development, to testing, documentation and maintenance, this degree offers you a focused, but fully rounded education.

We will support you to explore the underlying principles of software engineering, while helping you gain knowledge and practical experience of the latest technologies.

You will be encouraged to appreciate both the technical and human aspects involved in areas such as software systems and design, systems analysis, programming, database specification and design, and system security.

MODULES
Fundamentals of Programming (CTF3201) - Core
Logical Analysis and Problem Solving (CTF3202) - Core
Computer Systems (CTF3203) - Core
Foundation Project (CTF3204) - Core
Introduction to Software Development (SWE4201) - Core
Computing Infrastructure (SWE4202) - Core
Databases (SWE4203) - Core
Computer Science Fundamentals (SWE4207) - Core
Advanced Programming (SWE5201) - Core
Data Structures and Algorithms (SWE5202) - Core
Software Engineering (SWE5203) - Core
Advanced Databases and Big Data (SWE5204) - Core
Undergraduate Project (SEC6201) - Core
Agile Programming (SWE6202) - Optional
Enterprise Systems Development (SWE6203) - Optional
Machine Learning (SWE6204) - Optional
Software Quality Management (SWE6205) - Optional

PROGRESSION OPPORTUNITIES

Software engineers may work at any stage of the software development life cycle. Duties can include producing project requirements, writing algorithms, coding, testing, deployment, or maintenance.

A software engineering graduate will have developed a wide range of technical and transferable skills such as advanced IT skills, analytical skills, communication, creativity and innovation, independence, logic, numeracy, project management and organisation.

The demand for skilled and qualified software engineers is increasing. This is fostered by a transforming economic landscape, driven by the need for computing technology solutions.

COURSE SPECIFICATION

-  **COURSE DURATION:**
4 years
-  **LEVEL:**
RQF Level 3-6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Exams, essays, reports and presentations

ENTRY REQUIREMENTS

- UCAS POINTS:** 48
- LEVEL 3:** Any subjects are acceptable

GCSEs
Five at grade C or above / grade 4 to 9

IELTS
5.0 with no less than 4.5 in any band (non-native speakers)

If you didn't study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You'll be required to attend an interview as part of the admissions process.

BSc (HONS) COMPUTING WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

Our **BSc (Hons) Computing with Foundation Year** is a flexible and far-reaching undergraduate course designed to support you with focused attention, industry insights and excellent IT resources.

Forge your own path into specialisms and potential career options, and move onto the full degree programme with dedicated help from expert teaching staff.

This engaging and flexible course draws on key elements from other study pathways to give you a wide-ranging, industry-informed programme.

As you progress, you will have the opportunity to 'zoom in' on aspects of the subject that you have personal interests and strengths in, or that support your career or study goals.

Our Foundation Year offers an excellent grounding in the fundamentals of computing, programming and mathematics. It's designed to prepare you for degree level study.

MODULES
Fundamentals of Programming (CTF3201) - Core
Logical Analysis and Problem Solving (CTF3202) - Core
Computer Systems (CTF3203) - Core
Foundation Project (CTF3204) - Core
Introduction to Software Development (SWE4201) - Core
Computing Infrastructure (SWE4202) - Core
Databases (SWE4203) - Core

Ethical Hacking and Digital Forensics (SEC6202) – Optional

PROGRESSION OPPORTUNITIES

This course will prepare you to move onto the full degree programme and with computing technologies playing a greater role in all aspects of modern life, graduates find their skills in high demand across a wide range of industries.

A computing degree combines theoretical study and practical projects where you can learn subject specific skills such as programming, systems, databases, computer platforms, website production and networking.

The ‘soft’ skills that a computing degree can equip you with include communication, leadership and organisational skills, all of which are highly sought after by employers.

Full-time
-  **TIMETABLE OPTIONS:**
Week days, evenings and weekends
-  **INTAKES:**
September, January, April and June
-  **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

UCAS POINTS: 48
LEVEL 3: Any subjects are acceptable

GCSES
Five at grade C or above / grade 4 to 9

IELTS
5.0 with no less than 4.5 in any band (non-native speakers)

If you didn't study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You'll be required to attend an interview as part of the admissions process.

FndCert INTERNATIONAL FOUNDATION PROGRAMME (COMPUTING)

FOUNDATION YEAR ROUTE

The **FndCert International Foundation Programme (Computing)** is the ideal course for international students interested in studying computing in the UK. It is designed to introduce you to key topics in computing and software engineering, help you improve your language skills, equip you with the academic skills that you will need and introduce you to Higher Education in the UK.

You will enjoy teaching from our academic faculty that is interactive and has a strong focus on communication and group work. You will not just be learning from our academic team, but also from your fellow students as you work together and support each other's progress. Studying in a foreign country is a great opportunity and can be a life-changing experience. It can be a challenge too, so you will get full support and encouragement to make the most of your time living and studying in your exciting new UK environment.

The **FndCert International Foundation Programme (Computing)** is an excellent preparation for further study in a computing related degree. On successful completion of this Level 3 qualification, you can achieve an English level comparable to IELTS 6.0 or 6.5. This course offers a combination of computing and games topics, English language and academic skills.

On completing this programme, you will be able to demonstrate the knowledge and understanding of key concepts, practices and principles in computing. You will be better equipped to solve problems using logical, analytical and empirical methods and concepts – and be familiar with industry-standard software.

MODULES
Maths for Computing and Engineering (IFP3014)
Foundation Project (CTF3204)
Fundamentals of Programming (CTF3201)
Computer Systems (CTF3203)
Stage C for IFP (EFP4005)
Stage D for IFP (EFP4006)

PROGRESSION OPPORTUNITIES

After completing the FndCert International Foundation Programme (Computing) successfully, you can apply for a computing related Bachelor’s degree at Regent College London or strengthen your career prospects in computing related roles.

COURSE SPECIFICATION

-  **LEVEL:**
RQF Level 3
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Presentations, Group work, Portfolio, Assignments, Exams
-  **MODE OF DELIVERY:**
Full-time
-  **INTAKE:**
September
-  **FEES:**
£9,250 per year (Overseas fees)

ENTRY REQUIREMENTS

- A Secure English Language Test score equivalent to IELTS 5.0 (overall) with no less than 4.5 in any one component, or an approved comparable qualification
- If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.
- A High School Leaving Certificate (or equivalent), usually recognised as at least GCSE equivalent or above by UK NARIC

BSc (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

London Academic Centre

The initial year of **BSc (Hons) Electrical and Electronic Engineering with Foundation Year** offers an excellent grounding in the fundamentals of engineering, electronics, and mathematics. It's designed to prepare you for degree-level study. During this first year, you'll explore introductory concepts that encompass various engineering subjects, including mechanics, mathematics, and electrical/electronic engineering. These will prepare you for the ever-increasing cross-disciplinary nature of engineering.

The rapid growth of the technology sector has seen an increased demand for creative, skilled engineers both nationally and internationally. Many global electronics organisations maintain research and development facilities within the UK and Europe. Engineers based in the UK can also be posted overseas to work on projects.

This degree will give you the engineering-related knowledge and practical skills needed for a professional career in engineering.

Alongside developing your skillset, we will help you build lifelong learning skills so that you can reflect on, articulate, and transfer them to everyday life in order to maximise your success. You will also be able to choose from several optional modules in your final year, which include renewable energies and advanced embedded systems, amongst others.

WHY SHOULD I DO THE BSC (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING WITH FOUNDATION YEAR DEGREE?

The **BSc (Hons) Electrical and Electronic Engineering with Foundation Year degree** will provide you with excellent capabilities to pursue a successful career within engineering. Employers want graduates who are not just academically qualified but are also work-ready with professional skills in management and leadership.

On completion of this course, you will have gained a host of intellectual and critical thinking skills such as applying engineering principles to critically analyse key engineering processes. After graduating, you can progress into a career in many fields including advance manufacturing, product design, bio medical engineering, or artificial intelligence, among many others. You may also choose to study a master’s degree.

MODULES
Foundation Principles 0 (ATT3037)
Foundation Principles 1 (ATT3033)
Foundation Principles 2 (ATT3034)
Engineering Study Skills (ATT3035)
Engineering Technology (ATT3036)
Engineering Environment (AME4061)
Introductory Engineering Mathematics (EEE4011)
Introductory Electrical Principles (EEE4012)
Introductory Digital Electronics (EEE4013)
Introductory Analogue Electronics (EEE4014)
Introductory Embedded Systems (EEE4015)
Engineering Modelling and Analysis (AME5014)
Instrumentation and Control (EEE5011)
Intermediate Digital Electronics and Communications (EEE5012)
Intermediate Electrical Principles and Enabling Power Electronics (EEE5013)
Intermediate Embedded Systems (EEE5014)
Major Project (AME6011)
Management and Enterprise in Engineering (AME6013)
Electrical Machines and Power Electronic Drives (EEE6011)
Engineering Electromagnetism (EEE6012)
Digital Signal Processing (EEE6013)
Integrated Circuit Design (EEE6014)
Power Systems and Smart Grids (EEE6015)
Renewable Energies (EEE6016)
Advanced Embedded Systems (EEE6017)

PROGRESSION OPPORTUNITIES

In addition to technical knowledge, this degree offers you the opportunity to develop a range of key employability skills that are highly transferrable to a wide range of areas beyond engineering, such as IT, finance and management.

Another possible course of action for graduates is to pursue further study in a specialist field of research. Courses include an MSc or Ph.D. in areas such as internet engineering, nanotechnology, wireless and optical communications, and telecommunications.

COURSE SPECIFICATION

-  **COURSE DURATION:**
4 years
-  **LEVEL:**
RQF Level 3-6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Written exams, course work, practical exams
-  **MODE OF DELIVERY:**
Full-time
-  **TIMETABLE OPTIONS:**
Weekday/Weekend/Evening Classes
-  **INTAKES:**
September, January, April and June
-  **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

UCAS POINTS: 48
Minimum of two GCE A2-level passes (or equivalent), including mathematics and science; and five GCSEs at grade C or above (or equivalent), including English

Level 3 in related subject
College-recognised certificated learning equivalent to the above. Where possible Regent College London uses the NARIC database to determine equivalents to GCSE and A level qualifications

IELTS: 5.0 with no less than 4.5 in any band (non-native speakers). We also accept a range of other English language qualifications

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

You may be required to attend an interview and/or provide a portfolio of work

BSc (HONS) MECHANICAL ENGINEERING WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

London Academic Centre

Mechanical engineers are always in demand around the globe. They create solutions and solve problems, and play a central role in the design and implementation of moving parts in a range of industries. This programme will prepare you with the skills and knowledge that you need to succeed in this competitive and diverse field.

The course will see you apply mathematical and statistical methods, tools, and notations in the analysis and solution of complex engineering problems. You will also develop your capabilities in problem-solving, managing workloads, and communicating with a range of individuals. In your foundation year, you will gain an excellent grounding in the fundamentals of the engineering environment and its principles.

WHY SHOULD I DO THE BSC (HONS) MECHANICAL ENGINEERING WITH FOUNDATION YEAR DEGREE?

This course prepares prospective engineers for meaningful professional employment in the **Mechanical Engineering** sector.

You will develop your cognitive, intellectual, and problem-solving skills via key principles of mechanical engineering. The demand for skilled and qualified mechanical engineers is increasing, which is fostered by a transforming economic landscape, driven by the need for advanced engineering solutions.

Upon graduation, you will be able to pursue a career in a wide range of industries. Examples include advance manufacturing, product design, bio medical engineering, and artificial intelligence, among many others. You may also choose to study a Master's in a related subject area.

MODULES
Foundation Principles 0 (ATT3037)
Foundation Principles 1 (ATT3033)
Foundation Principles 2 (ATT3034)
Engineering Study Skills (ATT3035)
Engineering Technology (ATT3036)
Engineering Environment (AME4061)
Engineering Principles 1 (AME4062)
Engineering Principles 2 (AME4063)
Projects and Systems (AME4064)
Graphical Communications and Computer Modelling (AME4065)
Engineering Applications (AME5011)
Mechanics of Materials and Machines (AME5012)
Thermofluids and Control Systems (AME5013)
Engineering Modelling and Analysis (AME5014)
Engineering in Business and Society (AME5015)
Major Project (AME6011)
Advanced Materials and Structures (AME6012)
Management and Enterprise in Engineering (AME6013)
Advanced Thermofluids and Control (AME6015)
Finite Element and Difference Solutions (AME6016)

PROGRESSION OPPORTUNITIES

The BSc (Hons) Mechanical Engineering with foundation year degree is well recognised both nationally and internationally. Once you have graduated with this degree, you will have the opportunity to explore a range of careers in the engineering sector.

Mechanical engineers are employed across many sectors, including aerospace, automotive, chemical, construction, medicine, sport, consumer goods, and electrical. There are career opportunities both in the UK and abroad.

COURSE SPECIFICATION

-  **COURSE DURATION:**
4 years
-  **LEVEL:**
RQF Level 3-6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Written exams, course work, practical exams

ENTRY REQUIREMENTS

- UCAS POINTS: 48**

Minimum of two GCE A2-level passes (or equivalent), including any relevant subject; and five GCSEs at grade C or above (or equivalent), including Mathematics, Science, and English

Level 3 in related subject

College-recognised certificated learning equivalent to the above. Where possible Regent College London uses the NARIC database to determine equivalents to GCSE and A level qualifications

IELTS: 5.0 with no less than 4.5 in any band (non-native speakers). We also accept a range of other English language qualifications

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd. **Please see here** for the minimum scores required for each

You may be required to attend an interview and/or provide a portfolio of work

FndCert INTERNATIONAL FOUNDATION PROGRAMME (ENGINEERING)

FOUNDATION YEAR ROUTE

The **FndCert International Foundation Programme (Engineering)** is the ideal course for international students interested in studying engineering in the UK. It is designed to introduce you to key topics in engineering, help you improve your language skills, equip you with the academic skills that you will need and introduce you to Higher Education in the UK.

You will enjoy teaching from our academic faculty that is interactive and has a strong focus on communication and group work. You will not just be learning from our academic team, but also from your fellow students as you work together and support each other's progress. Studying in a foreign country is a great opportunity and can be a life-changing experience. It can be a challenge too, so you will get full support and encouragement to make the most of your time living and studying in your exciting new UK environment.

WHY DO A FNDCERT INTERNATIONAL FOUNDATION PROGRAMME (ENGINEERING)

The FndCert International Foundation Programme (Engineering) is an excellent preparation for further study in an engineering related subject. On successful completion of this Level 3 qualification, you can achieve an English level comparable to IELTS 6.0 or 6.5. We will support you in the development of essential skills, which can prepare you for academic study as well as future employment.

On completing this programme, you will be able to demonstrate the knowledge and understanding of key concepts, practices and principles in engineering. Teaching will be interactive and inclusive with a focus on developing your communication as well as your skills and knowledge. We will help you develop essential English, academic and professional skills, such as academic writing, reading, listening, presenting and application of ICT.

MODULES
Maths for Computing and Engineering (IFP3014)
Engineering Technology (ATT3036)
Foundation Principles 1 (ATT3033)

BEng (HONS) SOFTWARE ENGINEERING

BACHELOR'S DEGREE

London Academic Centre

Retail, manufacturing, defence, healthcare, education – most sectors of government and industry rely on software systems, and professional, competent and the creative software engineers who develop and maintain them. Our **BEng (Hons) Software Engineering degree** offers you the skills and knowledge needed to succeed in this field.

Concerned with the building and maintenance of software systems and other computer-based solutions, software engineering is a truly global industry. By examining all elements of the process – from initial understanding of the problem, through analysis, design, and development, to testing, documentation and maintenance, this degree offers you a focused, but fully rounded education.

We will support you to explore the underlying principles of software engineering, while helping you gain knowledge and practical experience of the latest technologies.

You will be encouraged to appreciate both the technical and human aspects involved in areas such as software systems and design, systems analysis, programming, database specification and design, and system security.

In addition to technical knowledge, you will have opportunities to gain experience in communication and presentation, problem solving and time management.

Our focus is on helping you develop industry-relevant skills that prepare you for a career in software engineering.

MODULES
Introduction to Software Development (SWE4201) - Core
Computing Infrastructure (SWE4202) - Core
Databases (SWE4203) - Core
Computer Science Fundamentals (SWE4207) - Core
Advanced Programming (SWE5201) - Core
Data Structures and Algorithms (SWE5202) - Core
Software Engineering (SWE5203) - Core
Advanced Databases and Big Data (SWE5204) - Core
Undergraduate Project (SEC6201) - Core
Agile Programming (SWE6202) - Optional
Enterprise Systems Development (SWE6203) - Optional
Machine Learning (SWE6204) - Optional
Software Quality Management (SWE6205) – Core

PROGRESSION OPPORTUNITIES

Software engineers may work at any stage of the software development life cycle. Duties can include producing project requirements, writing algorithms, coding, testing, deployment, or maintenance.

A software engineering graduate will have developed a wide range of technical and transferable skills such as advanced IT skills, analytical skills, communication, creativity and innovation, independence, logic, numeracy, project management and organisation.

The demand for skilled and qualified software engineers is increasing. This is fostered by a transforming economic landscape, driven by the need for computing technology solutions.

COURSE SPECIFICATION

 **COURSE DURATION:**
3 years

 **LEVEL:**
RQF Level 4-6

 **AWARDING BODY:**
University of Bolton

 **ASSESSMENT:**
Exams, essays, reports and presentations

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Week days, evenings and weekends

 **INTAKES:**
September, January, April and July

 **FEES:**
£9,000 per year (Home fees)
£12,450 per year (Overseas fees)

ENTRY REQUIREMENTS

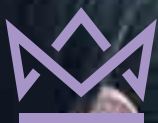

UCAS POINTS: 104
LEVEL 3: Any subjects are acceptable

GCSEs
Five at grade C or above / grade 4 to 9

IELTS
5.0 with no less than 4.5 in any band (non-native speakers)

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

If you didn't study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You'll be required to attend an interview as part of the admissions process.

BSc (HONS) COMPUTING

BACHELOR'S DEGREE

Teaching Intensive, Research Informed

London Academic Centre

Our BSc (Hons) Computing is a flexible and far-reaching undergraduate course designed to support you with focused attention, industry insights and excellent IT resources.

Forge your own path into specialisms and potential career options with dedicated help from expert teaching staff.

This engaging and flexible course draws on key elements from other study pathways to give you a wide-ranging, industry-informed programme.

As you progress, you'll have the opportunity to 'zoom in' on aspects of the subject that you have personal interest and strengths in, or that support your career or study goals.

With intentionally small class sizes, we can offer you more meaningful and personalised interaction with our dedicated and enthusiastic lecturers – many of whom come with extensive industry insights and experience.

Meanwhile, guest speakers and lecturers give you access to highly relevant and up-to-date input from industry settings.

MODULES
Introduction to Software Development (SWE4201) - Core
Computing Infrastructure (SWE4202) - Core
Databases (SWE4203) - Core
Computer Science Fundamentals (SWE4207) - Core
Data Structures and Algorithms (SWE5202) - Core
Advanced Databases and Big Data (SWE5204) - Core
Modern Applications (SWE5205) - Core
Systems Analysis and Design (SWE5206) - Core
Advanced Operating Systems (SEC5204) - Optional
Undergraduate Project (SEC6201) - Core
Enterprise Systems Development (SWE6203) - Optional
Machine Learning (SWE6204) - Optional
Software Quality Management (SWE6205) - Optional
Emerging Technologies (SWE6206) - Optional
Ethical Hacking and Digital Forensics (SEC6202) - Optional

PROGRESSION OPPORTUNITIES

With computing technologies playing a greater role in all aspects of modern life, graduates find their skills in high demand across a wide range of industries.

A computing degree combines theoretical study and practical projects where you can learn subject specific skills such as programming, systems, databases, computer platforms, website production and networking.

The soft skills that a computing degree can equip you with include communication, leadership and organisational skills, all of which are highly sought after by employers.

COURSE SPECIFICATION

GCSES

Five at grade C or above / grade 4 to 9

IELTS

6.0 with no less than 5.5 in any band (non-native speakers)

If you didn't study GCSEs / A-Levels and have non-traditional entry qualifications or relevant work experience we will be happy to consider your application. You'll be required to attend an interview as part of the admissions process.

BSc (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING

BACHELOR'S DEGREE

Teaching Intensive, Research Informed

London Academic Centre

The **BSc (Hons) Electrical and Electronic Engineering bachelor's degree** underpins the fundamentals of the engineering industry. One of the main aims of this program is to prepare prospective engineers for meaningful professional employment in the Electrical and Electronic Engineering sectors.

The rapid growth of the technology sector has seen an increased demand for creative, skilled engineers both nationally and internationally. Many global electronics organisations maintain research and development facilities within the UK and Europe. Engineers based in the UK can also be posted overseas to work on projects.

Once you have qualified with this degree, you will have gained the essential academic knowledge and practical skills needed to understand, use, enhance and design electrical- and electronics-based technology.

Alongside developing your engineering-related knowledge, we will help you build lifelong learning skills that you can reflect on, articulate, transfer into everyday life.

WHY SHOULD I DO THE BSC (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING DEGREE?

The course offers ‘real world’ engineering knowledge and skills developed through a combination of theory and practical applications. You can learn about cutting-edge and emerging technologies such as Smart Grids that are transforming global electricity delivery systems.

On completion, you will be able to demonstrate systematic knowledge such as applying engineering principles to critically analyse key processes. After graduating, you can progress into a career in many fields including advance manufacturing, product design, bio medical engineering, or artificial intelligence, among many others. You may also choose to study a master’s degree.

This course will provide you with the confidence to explore a career in various engineering disciplines.

MODULES
Engineering Environment (AME4061)
Introductory Engineering Mathematics (EEE4011)
Introductory Electrical Principles (EEE4012)
Introductory Digital Electronics (EEE4013)
Introductory Analogue Electronics (EEE4014)
Introductory Embedded Systems (EEE4015)
Engineering Modelling and Analysis (AME5014)
Instrumentation and Control (EEE5011)
Intermediate Digital Electronics and Communications (EEE5012)
Intermediate Electrical Principles and Enabling Power Electronics (EEE5013)
Intermediate Embedded Systems (EEE5014)
Analogue Signal Processing and Communications (EEE5015)
Major Project (AME6011)
Management and Enterprise in Engineering (AME6013)
Electrical Machines and Power Electronic Drives (EEE6011)
Engineering Electromagnetism (EEE6012)
Digital Signal Processing (EEE6013)
Integrated Circuit Design (EEE6014)
Power Systems and Smart Grids (EEE6015)
Renewable Energies (EEE6016)
Advanced Embedded Systems (EEE6017)

PROGRESSION OPPORTUNITIES

After graduating, you may choose to enter a variety of different industries. Typical employers include local authorities, manufacturers, power and water companies, renewable energy firms, and building services contractors.

You may also decide to pursue further study in a specialist field of research by taking a MSc or Ph.D. Common areas of study include internet engineering, nanotechnology, wireless and optical communications, and telecommunications.

COURSE SPECIFICATION

-  **COURSE DURATION:**
3 years
-  **LEVEL:**
RQF Level 4-6
-  **AWARDING BODY:**
University of Bolton

Weekday/Weekend/Evening Classes
-  **INTAKES:**
September, January, April and June
-  **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

UCAS POINTS: 96

Minimum of two GCE A2-level passes (or equivalent), including Mathematics & Physical Science, and five GCSEs at grade C or above (or equivalent), including Mathematics, Science, and English

Level 3 in related subject

College-recognised certificated learning equivalent to the above. Where possible Regent College London uses the NARIC database to determine equivalents to GCSE and A level qualifications

IELTS: 6.0 with no less than 5.5 in any band (non-native speakers)

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

You may be required to attend an interview and/or provide a portfolio of work

BSc (HONS) MECHANICAL ENGINEERING

BACHELOR'S DEGREE

London Academic Centre

With a global rise in demand from the automotive and nanotechnology industry, the need for **mechanical engineers** is greater than ever before. This engaging and flexible course draws key elements from several engineering disciplines to give you a wide-ranging, industry-informed programme to prepare you for employment in a variety of sectors.

During the 3-year qualification, you will learn the key principles of mechanical engineering, engineering applications, advanced materials, and structures, advanced thermofluids, and control -amongst many other subject topics.

Modern and career-focused, the BSc (Hons) Mechanical Engineering degree offers the grounding needed to help you excel.

WHY SHOULD I DO THE BSC (HONS)
MECHANICAL ENGINEERING DEGREE?

The **BSc (Hons) Mechanical Engineering degree** is perfect for those who have dreamt of a career in engineering. This course prepares prospective engineers for meaningful professional employment in the Mechanical Engineering sector.

You will develop your cognitive, intellectual, and problem-solving skills associated with mechanical engineering. The need for skilled and qualified mechanical engineers is increasing, which is fostered by a transforming economic landscape, driven by the need for advanced engineering solutions.

With a degree in mechanical Engineering, you will be able to pursue a career in a wide range of industries including advance manufacturing, product design, bio medical engineering, artificial intelligence, and many more. You may also choose to study a master’s programme.

MODULES
Engineering Environment (AME4061)
Engineering Principles 1 (AME4062)
Engineering Principles 2 (AME4063)
Projects and Systems (AME4064)
Graphical Communications and Computer Modelling (AME4065)
Engineering Applications (AME5011)
Mechanics of Materials and Machines (AME5012)
Thermofluids and Control Systems (AME5013)
Engineering Modelling and Analysis (AME5014)
Engineering in Business and Society (AME5015)
Major Project (AME6011)
Advanced Materials and Structures (AME6012)
Management and Enterprise in Engineering (AME6013)
Advanced Thermofluids and Control (AME6015)
Finite Element and Difference Solutions (AME6016)

PROGRESSION OPPORTUNITIES

As the BSc (Hons) Mechanical Engineering degree is a well-recognised degree. Your qualification will be recognised in both the UK and around the world. After graduation, you could pursue a career in manufacturing or other areas of science and technology, such as sustainable energy. The types of job roles are often in research and development, design, production, and plant management, or you may choose to continue your formal education in the form of an MSc or research degree.

COURSE SPECIFICATION

-  **COURSE DURATION:**
3 years
-  **LEVEL:**
RQF Level 4-6

Weekday/Weekend/Evening Classes
-  **INTAKES:**
September, January, April and June
-  **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

- UCAS POINTS:** 96

Minimum of two GCE A2-level passes (or equivalent), including Mathematics and a Science and five GCSEs at grade C or above (or equivalent), including Mathematics, Science and English
- Level 3** in related subject

College-recognised certificated learning equivalent to the above. Where possible Regent College London uses the NARIC database to determine equivalents to GCSE and A level qualifications

IELTS: 6.0 with no less than 5.5 in any band (non-native speakers). We also accept a range of other English language qualifications

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

You may be required to attend an interview and/or provide a portfolio of work

BEng (HONS) SOFTWARE ENGINEERING TOP-UP

TOP UP DEGREE

London Academic Centre

The **BEng (Hons) Software Engineering Top-up Degree** will see you completing a core undergraduate project, alongside a choice of completing two optional modules including agile programming, enterprise systems development, and machine learning. All modules will expose you to a variety of disciplines within software engineering.

Software engineering qualifications are considered essential whether you are looking to pursue a career in software engineering, computing, or simply looking to advance in your current career.

The course is designed to help you to understand the software engineering environment and the needs of employers in local, national, and international contexts. We will support you to develop highly sought-after skills such as communication, data analysis, time management, team working and problem-solving.

The **BEng (Hons) Software Engineering Top-up Degree** is perfect for those looking to gain career progression within the field. It is designed to provide a broad understanding of different functions within the digital world.

It is a progression route from a foundation degree, Higher National Diploma (HND) or level 5 equivalent in software engineering or Computing/programming-related course, allowing you to gain a full degree. Some graduates may choose to undertake further study in order to hone their expertise in a particular area of software engineering.

MODULES
Undergraduate Project (SEC6201) - Core
Agile Programming (SWE6202) - Optional
Enterprise Systems Development (SWE6203) - Optional
Machine Learning (SWE6204) - Optional
Software Quality Management (SWE6205) - Optional

PROGRESSION OPPORTUNITIES

Software engineers may work at any stage of the development life cycle. Duties can include producing project requirements, writing algorithms, coding, testing, deployment, or maintenance.

COURSE SPECIFICATION

-  **COURSE DURATION:**
1 year
-  **LEVEL:**
RQF Level 6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Written exams, course work, practical exams
-  **MODE OF DELIVERY:**
Full-time
-  **TIMETABLE OPTIONS:**
Weekdays, evenings and weekends
-  **INTAKES:**
September, January, April, and June
-  **FEES:**
£9,250 per year (Home fee)

ENTRY REQUIREMENTS

- You will need either an FdSc or HND in software engineering or Computing/programming-related course.
- Students with non-traditional qualifications and/or relevant experience may be accepted onto the course. This must be evidenced via a personal statement, successful interview, and supported by employment reference(s) indicating the duration of employment and the role.
- If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd. You may be required to attend an interview and/or provide a portfolio of work.

BSc (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING

TOP UP DEGREE

London Academic Centre

With a Top-up degree in **Electrical and Electronic Engineering**, you can progress to explore many fields within the engineering industry.

This engaging and flexible course draws key elements from several engineering disciplines to give you a wide-ranging, industry-informed program. During the 1-year qualification, you will learn the key principles of instrumentation and control, engineering electromagnetism, and renewable energies, amongst many other subject topics.

Modern and career-focused, this degree program offers you the grounding needed to excel within engineering. Delivered in partnership with the University of Bolton, you will also develop your employability as this is a key focus of this dynamic and flexible program. Real-life case studies, guest speakers, and industry visits are designed to help you to understand the engineering environment and the needs of employers in local, national, and international contexts.

WHY SHOULD I DO A BSC (HONS) ELECTRICAL AND ELECTRONIC ENGINEERING (TOP-UP) DEGREE?

The Top-up integrates career and life skills such as leadership, team management, and professional communication to help develop and enhance employability.

You will develop your cognitive, intellectual, and problem-solving skills via key principles of **electrical and electronic engineering**.

MODULES
Automobile/Mechanical Design (AME5005)
Instrumentation & Control (EEE5001)
Major Project (AME6011)
Management and Enterprise in Engineering (AME6013)
Electrical Machines and Power Electronic Drives (EEE6011)
Engineering Electromagnetism (EEE6012)
Digital Signal Processing (EEE6013)
Integrated Circuit Design (EEE6014)
Power Systems and Smart Grids (EEE6015)
Renewable Energies (EEE6016)
Advanced Embedded Systems (EEE6017)

PROGRESSION OPPORTUNITIES

The BSc (Hons) Electrical and Electronic Engineering Top-up degree will prepare you for a variety of exciting career pathways, or the opportunity to expand on your journey with post-graduate study. Potential careers in the field of engineering include:

- Civil engineering
- Software engineering
- Environmental engineering
- Electrical engineering

COURSE SPECIFICATION

 **COURSE DURATION:**
1 year

 **LEVEL:**
RQF Level 6

 **AWARDING BODY:**
University of Bolton

 **ASSESSMENT:**
Written exams, course work, practical exams

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Weekday/Weekend/Evening Classes

 **INTAKES:**
September, January, April and June

 **FEES:**
£9,250 per year (Home fees)

ENTRY REQUIREMENTS

You are normally expected to have completed a relevant qualification at Level HE5, such as a Foundation Degree or HND, or professional qualification at an equivalent level

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

You may be required to attend an interview and/or provide a portfolio of work

BSc (HONS) MECHANICAL ENGINEERING

TOP UP DEGREE

London Academic Centre

The **BSc (Hons) Mechanical Engineering Top-up degree** will expose you to key concepts within engineering such as automobile/mechanical design, advanced materials and machines, among others. A mechanical engineering degree is considered an essential qualification if you're looking to pursue a career within the field of mechanical engineering, or advance your current career.

The diverse nature of this engineering program necessitates the use of a variety of teaching and learning methods to ensure the acquisition and development of appropriate concepts, knowledge, and skills. Upon completion of this program, you will gain a host of skills and knowledge including mathematical and statistical methods which are necessary to underpin your education in your engineering discipline.

This undergraduate course is a great way to stand out from the crowd to help attract career progression and future employers.

WHY SHOULD I DO A BSC (HONS) MECHANICAL ENGINEERING (TOP-UP) DEGREE?

A Top-up degree can help open doors to your future career. You will develop your cognitive, intellectual, and problem-solving skills via key principles of mechanical engineering. The demand for skilled and qualified mechanical engineers is increasing, which is fostered by a transforming economic landscape, driven by the need for advanced engineering solutions.

We'll support you to develop highly sought-after skills such as communication, data analysis, time management, team working and problem-solving.

MODULES
Automobile/Mechanical Design (AME5005)
Mechanics of Materials and Machines (AME5002)
Major Project (AME6011)
Advanced Materials and Structures (AME6012)
Management and Enterprise in Engineering (AME6013)
Advanced Thermofluids and Control (AME6015)
Finite Element and Difference Solutions (AME6016)

PROGRESSION OPPORTUNITIES

The BSc (Hons) Mechanical Engineering Top-up degree will help you gain the knowledge and skills needed to play a vital role in everyday lives. So much of our world is dependent on engineering, and this course aims to give you a well-rounded skill set to take the next step in your mechanical engineering career. Once you have gained your Top-up degree, you may go on to explore a career within a range of industries such as:

- Aerospace
- Oil and gas
- Manufacturing
- Medical

COURSE SPECIFICATION

You may be required to attend an interview and/or provide a portfolio of work

BSC (HONS) COMPUTING

TOP-UP DEGREE

London Academic Centre

The **BSc (Hons) Computing** (Top-up) degree will help to prepare you for a successful career operating in the ever-changing technological world. The programme provides and builds upon a broad education in computing and business information systems, incorporating options from both website development and networks and security.

The BSc (Hons) Computing (Top-up) is a 1-year course that will see you completing a core undergraduate project alongside two out of four optional modules. It is a progression route from a Higher National Diploma (HND) in computing or a computing-related course, allowing you to gain a full degree awarded by the University of Bolton, our validating partner.

Who is the Top-up degree in Computing for?

This course will allow students with a Higher National Diploma (or equivalent level 5 qualification) in computing-related subjects to progress onto the final year of a degree. Upon completion students will receive a full degree award in computing.

If you are interested in learning more about consultancy or want to eventually progress onto postgraduate study, then this course is a good choice for you.

CAREER PROSPECTS

With computing technologies playing a greater role in all aspects of modern life, graduates find their skills in high demand across a wide range of industries.

A computing degree combines theoretical study and practical projects where you can learn subject-specific skills such as programming, systems, databases, computer platforms, website production and networking.

MODULES
Undergraduate Project (SEC6201) (Core)
Enterprise Systems Development (SWE6203) (Optional)
Machine Learning (SWE6204) (Optional)
Software Quality Management (SWE6205) - Optional
Emerging Technologies (SWE6206) (Optional)
Ethical Hacking and Digital Forensics (SEC6202) (Optional)

COURSE SPECIFICATION

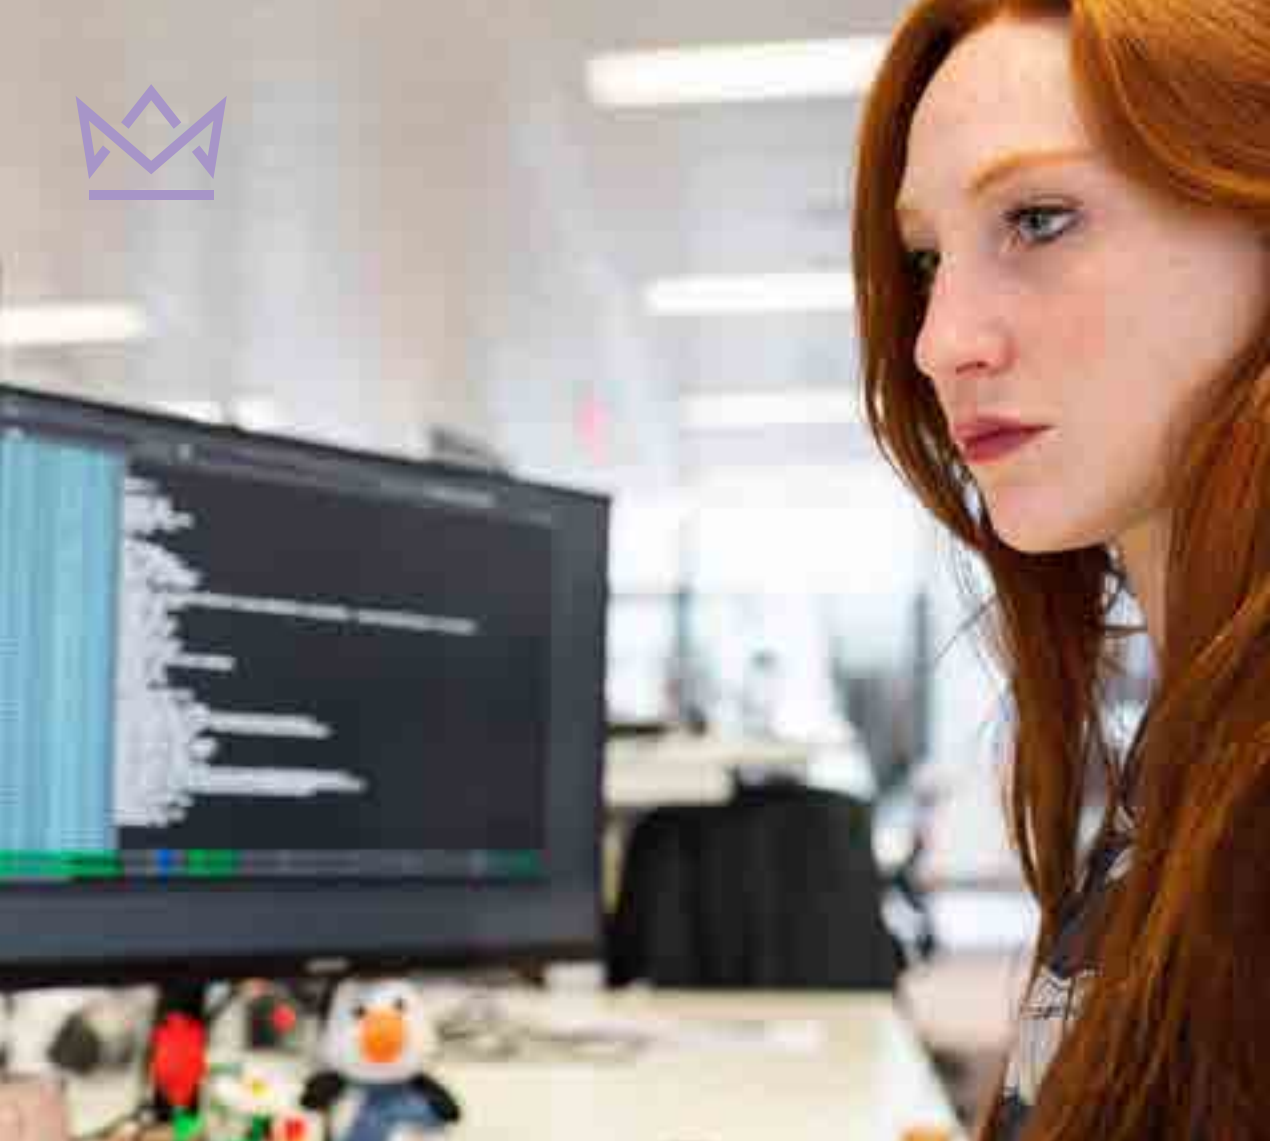

-  **COURSE DURATION:**
1 year
-  **LEVEL:**
RQF Level 6
-  **AWARDING BODY:**
University of Bolton
-  **ASSESSMENT:**
Written exams, course work, practical exams
-  **TIMETABLE OPTIONS:**
Weekday/Weekend/Evening Classes
-  **INTAKES:**
September, January, April and June
-  **FEES:**
£9,250 per year (Home fee)

ENTRY REQUIREMENTS

You will need either an FdSc or HND in software engineering or Computing/programming-related course.

Students with non-traditional qualifications and/or relevant experience may be accepted onto the course. This must be evidenced via a personal statement, successful interview, and supported by employment reference(s) indicating the duration of employment and the role.

If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd. Please see here for the minimum scores required for each. You may be required to attend an interview and/or provide a portfolio of work.

MSc SOFTWARE ENGINEERING

MASTER'S DEGREE

London Academic Centre

Gain a deeper understanding of advanced software methodologies with the **MSc Software Engineering degree**.

You will be able to analyse advanced software development and recognise resources required for Software Engineering once you have graduated. Jobs directly related to a Software Engineering degree include games, systems and web development, search engine optimization, information systems management, web design and business analysis. This degree also ensures that you can have access and exposure to the latest techniques alongside practical skills.

WHY SHOULD I STUDY FOR THE MSC SOFTWARE ENGINEERING DEGREE?

If you are looking to make a mark within the world of **Software Engineering**, then this course is perfect for you! You will gain several skills which include, cognitive, intellectual, transferable, all of which can be applied to the real world. We have some of the best academic teams within the education sector who deliver engaging lessons to our students. In addition, small class sizes ensure 1-2-1 advice and help when needed.

After graduating, you can progress into a career in many fields including advanced manufacturing, product design, biomedical engineering, or artificial intelligence. You will also have the opportunity to explore a career in various engineering disciplines, such as web development, quality assurance and much more.

The MSc Software Engineering programme comprises 5 modules at Level 7 which are all core.

MODULES
Masters Project (SEC7001)
Research Methods (SWE7004)
Contemporary Software Engineering Practices (SWE7101)
Advanced Software Development (SWE7102)
Dev Ops (SWE7103)

PROGRESSION OPPORTUNITIES

After graduating with an MSc Software Engineering Degree, you will have stimulated your levels of creative thinking and enhanced your problem solving and decision-making techniques; allowing you to impress employers and make your mark within the industry. This course also paves the way for PhD research studies in software engineering and computing-related subjects.

A few roles that you may choose to explore upon graduating with an MSc in Software Engineering are:

- Applications developer
- Cyber security analyst
- Game developer
- Information systems manager
- IT consultant
- Multimedia programmer
- Web developer
- Web designer
- Software engineer

COURSE SPECIFICATION

 **COURSE DURATION:**
1 year

 **LEVEL:**
RQF Level 7

 **AWARDING BODY:**
University of Bolton

 **ASSESSMENT:**
Written exams, course work, practical exams

 **MODE OF DELIVERY:**
Full-time

 **TIMETABLE OPTIONS:**
Weekdays, evenings and weekends

 **INTAKES:**
September, January, April, and June

 **FEES:**
£7,000 per year (Home fee)
£12,450 per year (Overseas fee)

ENTRY REQUIREMENTS

- The standard entry requirement for the course is BSc (Hons) in Computer Science related subjects or BEng (Hons) in Software Engineering, usually with a first or upper second class classification. For applicants without a first or upper second, then a lower second degree will be considered on a case by case basis
- If English is not your first language you will need to complete a Secure English Language Test at IELTS 6.0 or equivalent with no band less than 5.5.
- If you are an international student, you must take a Secure English Language Test (SELT). You can only take a SELT with one of the following providers: IELTS SELT Consortium including UKVI Academic IELTS, LanguageCert, Pearson and PSI Services (UK) Ltd.

"I've started studying at Regent College to be able to further develop in my career. The college has offered me a lot of support and feedback on my assignments allowing me to be able to aim high and keep working during the week."

Dorinel Barbanta

BA Business Entrepreneurship Top-Up

SCHOOL OF LAW AND SOCIAL SCIENCES

The School of Law and Social Sciences encompasses law, criminology, policing, and social sciences.

Our courses spark debate and challenge you to think creatively, whilst igniting curiosity about social justice and criminal behaviour. During your time with us, you will develop high-level professional skills to help shape and influence the key everyday decisions that affect the society around us.

You can expect to learn from the best tutors in academia and across the industry; all specialists in their subject areas with expert knowledge and experience in mentoring and tutoring small class sizes.

LLB (HONS) LAW WITH BUSINESS WITH FOUNDATION YEAR

FOUNDATION YEAR ROUTE

St Mary's
University
Twickenham
London

Our 4-year law with business degree, known as an LLB or Bachelor of Law, is equivalent to a BA or BSc. This course is ideal for students interested in pursuing a career in law and wishing to understand its operation in a business environment.

A law degree is widely respected whether you want to become a solicitor, barrister, or in-house lawyer. As a qualifying law degree (QLD), this course is essential if you are considering a career as a solicitor or a barrister. The degree allows you to continue to move on to the next stage of training to enter the legal profession: The BPTC for barristers or the LPC/SQE for solicitors.

Regent's LLB in business with law is perfect if you prefer to learn in smaller seminar groups with individual attention. An industry-leading faculty of expert tutors and academics from various disciplines across industry and academia teach our LLB. The course offers flexible study options allowing you to choose which learning style works best for you.

WHY STUDY THIS COURSE?

- An LLB Law with Business degree is an ideal programme for students who wish to enter a diverse range of professions outside of legal work. Such as jobs in the City, civil service, criminal justice/social/probation services, the charitable sector, or the world of business.
- If you have a passion for law and want to challenge injustice, this is the degree for you. Once you have graduated, you will have opportunities to explore different job roles within the law field and its surrounding specialities.
- You prefer smaller class sizes with robust and timely formative assessment support.

PROGRESSION OPPORTUNITIES

Becoming a Solicitor

Since September 2021, anyone who has not started a QLD can now qualify as a solicitor through the Solicitor's Qualification Exam route (SQE).

The candidate must:

- Complete both stages of assessment, SQE1 and SQE2
- Complete a degree-level qualification or equivalent
- Complete two years of qualifying work experience (QWE)
- Satisfy the SRA's character and suitability requirements

Becoming a Barrister

Our LLB Law degrees are 'Qualifying Law Degrees' (QLD) and are recognised by the Bar Standards Board. Completing one of these degrees will satisfy the academic requirements for admission to the Bar. However, you will still need to pass an aptitude test and embark on (and pass) the Bar Professional Training Course (BPTC). You will also be required to undertake pupillage.

LLB law with business graduates have also gone on to become:

- Lawyer
- Diplomatic service officer
- Forensic accountant
- Human resources officer
- Local government officer
- Market researcher
- Marketing Executive
- Newspaper journalist
- Public relations officer
- Stockbroker
- Journalist

Our LLB law with business is an ideal course to ground your legal knowledge and help prepare you for many possible future careers.

How to Apply

Step 1: Initial Consultation (IAG)

From choosing your desired course, writing your personal statement and submitting the application, you can count on our friendly Recruitment Team for help and guidance at every step of the way. Get in touch to make an initial appointment to discuss your situation.

Step 2: Submit your application

- For a few courses, you will need to complete a PDF/MS Online application form;
- For most courses, you will need to submit an online application via UCAS (or other portals).

Our recruitment team will help you navigate this process and complete your application UCAS applications cost £20 for one course choice or £25 for multiple course choices.

Step 3: English Language Requirements

- If you don't have a qualification which demonstrates the required level of English proficiency you will need to take our English language screening assessment. This supervised assessment will test your reading, writing, listening and speaking skills. The initial English assessment takes around 90 minutes to complete;
- For other courses you may need to attend pre-sessional classes and sit a final English test;
- If you hold an accepted English qualification you will be exempt from this step.

Step 4: Academic interview

Once you have applied for your chosen course, our admissions team will review your application to ensure that it is complete and that you meet our eligibility and entry requirements for the course.

If you do, you will receive an email to book your online interview with a member of our admission tutors.

At Regent College London we try to make the application process as easy as possible. From initial contact to enrolment, our aim is to make each stage of the process clear to applicants and to provide you with all the help, support and advice needed to successfully apply and enrol on our courses.

Step 5: Applying for Student Finance

It is important that you submit a Student Finance Application straight away before your course start date. Our Student Finance team can help you apply for funding via email or over the telephone.

Whilst we list applying for your student finance as step five of our process, you can apply at any stage using your preferred course/provider choice details. In fact, the earlier you do this the better in many ways as it can take up to six weeks for Student Finance England (SfE) to process your application.

Step 6: Acceptance of offer

If you are successful in applying to the College, you will receive an offer letter which you must accept before the start date to secure your place. The acceptance can be done via UCAS Track or email, depending on the course you have applied for.

"Regent College London has this amazing partnership with the Bucks New University, providing you opportunities for your future. It is a very nice environment with lovely students and lovely staff, always happy and ready to help you improve your academic journey. They will give you support and assistance whenever you are in need. I would definitely recommend this institute, if someone is looking for a bachelor degree education. You will feel accepted and supported in this college."

Gianina-Madlena Patrascanu

BA (Hons) Marketing with Foundation Year

"My overall experience has been fantastic! I've made a great group of friends. My class size is small and we have a laugh with the tutors. The lessons are completely related to the job you want to do, and the course has made me rethink on what career I want because it leads you to many high paying jobs! I've learnt laws, legislation and skills that will benefit me in my career and its only my first year here! During the coronavirus, teaching has continued and tutors have been in regular contact to make sure I'm OK and to check if I need help. They've even worked out of hours to provide one to one support to get me through assignments! They've really gone above and beyond!"

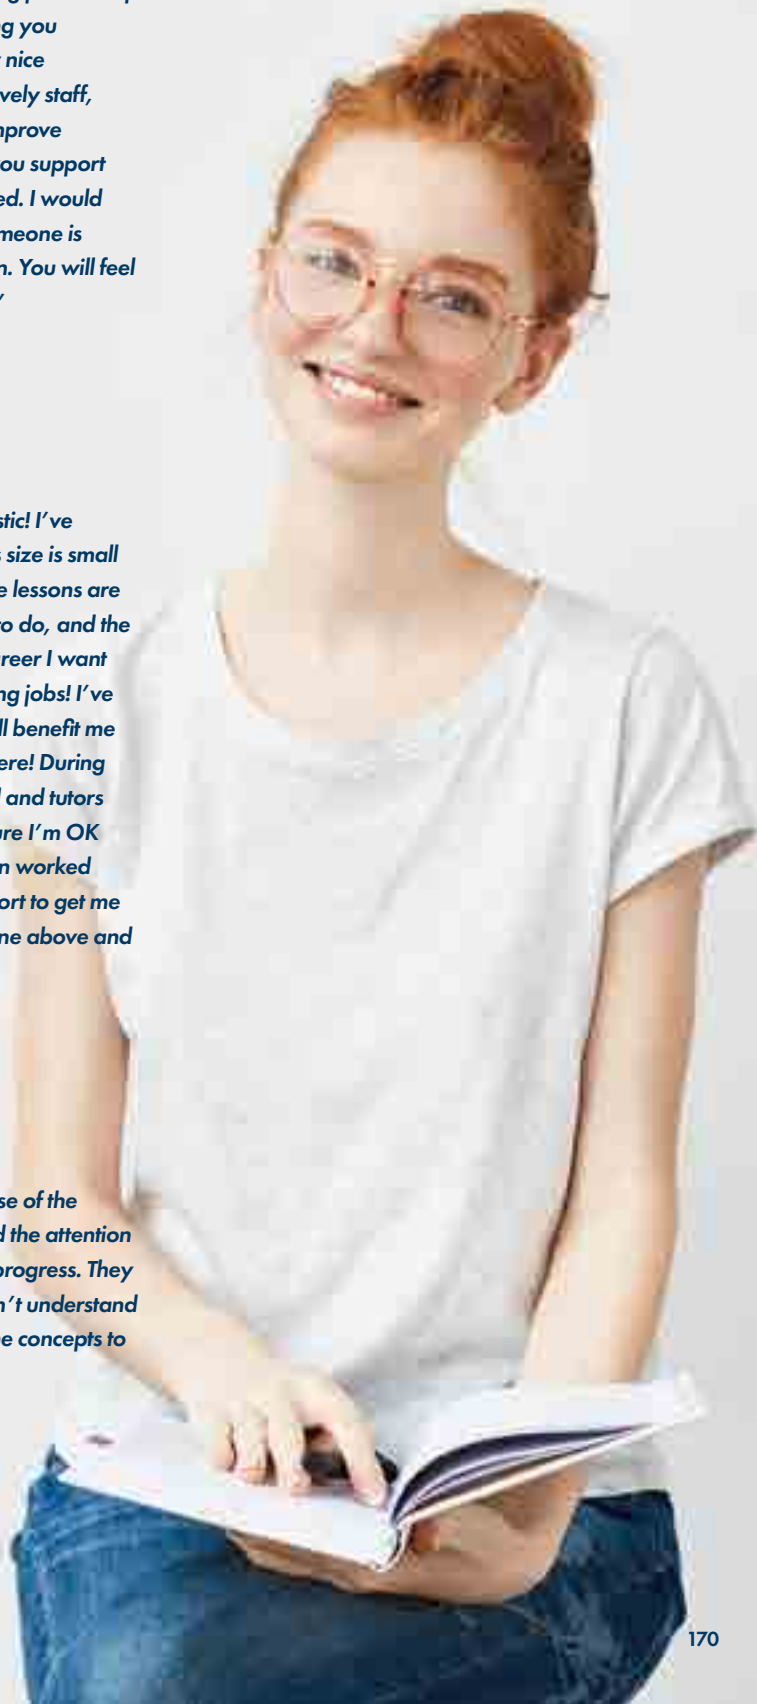

Radostina Todorova Dimitrova

BA (Hons) Business Management

"I would recommend the college because of the professionalism shown by the tutors and the attention they give to us students, so we that can progress. They are also very friendly and when we don't understand something they spend time to explain the concepts to us properly."

Galin Gavrilov

BSc (Hons) Business Management
with Foundation Year

BA (Hons) Law and Business with Foundation Year	£9,250 (Home fees)
LLB (Hons) Law with Business with Foundation Year	£9,250 (Home fee)

PEARSON REGISTRATION FEE

The Pearson registration fee is a requirement of HND study at Regent College London, to ensure that each HND student is properly registered with Pearson. This allows us to provide tuition and course materials as directed by Pearson. You will be charged the registration fee if no funding is in place at the start of term. If you are applying for a loan via the Student Loans Company, you can claim this fee back once your funding is secured. The fee is payable via debit/credit card.

TUITION LOAN AND MAINTENANCE SUPPORT

All UK and EU students entering UK education are entitled to pay fees at the home rate for the academic year 2020/21. Eligibility for fee assistance or maintenance support is also open to UK/EU students. This does not need repaying until the study period has finished and you are earning more than £26,575 per year.

NEW EU STUDENTS STARTING IN 2021/22 (EXCLUDING REPUBLIC OF IRELAND)

EU, EEA and Swiss nationals arriving in the UK on or after 01 January 2021 and starting their course in academic year 2021/2022 or later, will no longer be eligible for the same tuition fees or student loan as UK Students. If you are an undergraduate, postgraduate, or advanced learner, you will not be eligible for financial support and/or loans from Student Finance England.

However, Regent College London will apply a Transition Scholarship to your tuition fees which will reduce them to the same amount as a UK Student. To be eligible for a Transition Scholarship, you will need to be an EU, EEA and Swiss national arriving in the UK on or after 01 January 2021 and starting your course in academic year 2021/2022 or later.

FUNDING

UK/EU students may be able to borrow money to help pay for university or college tuition fees and to help with living costs.

Regent College London aims to provide current information for our prospectus and website at all times however, it may occasionally be unable to run an advertised course for reasons of operational viability and student experience. In the event that a course is unable to run, or is only available at a different location, we will advise applicants and enrolled students at the earliest possible opportunity in writing. Applicants and students will, wherever feasible, be offered an alternative course or location of study.
