

**Example 5: Informed Consent Form**

**Consent Form for Research Participants**

**Project Title:**

Young People: Constructing Belonging

**Project Approval Reference:**

[insert following ethical approval]

I understand the research study to be conducted by the researcher \_\_\_\_\_ and I agree to participate in the research study.

I understand that participating means I might do the following:

- I may meet with researcher and a group of my peers to talk about the research
- I may draw a mind map
- I may take a walk around the local city with the researcher
- I may share songs, or objects or photos with the researcher

I understand that my participation is voluntary.

I understand that my information is confidential.

I understand that some of my conversations with the researcher will be audio recorded.
